

ESTABLISHED 1873

BISMARCK, NORTH DAKOTA, SATURDAY, OCTOBER 6, 1923

AMMONIA USED IN CONVICT SEIGE

STATE FAITH IS NECESSARY FOR BUILDING

Major Stanley Washburn Approaches Agricultural Problem from New Angle

FUNDAMENTALLY SOUND

Everything Is in State to Make it one of Richest in Union, He Says

North Dakota's chief trouble is within herself, Major Stanley Washburn, of the Washburn Lignite Coal Company, declared here today after a tour of the state investigating conditions.

"North Dakota's fundamental trouble right now is loss of morale," Mr. Washburn declared. In looking over the situation, he said, he approached it from the same angle he had approached the task of a war correspondent with 20 armies and in 100 battles in his experience.

The first thing to look for in sizing up a military situation is the constant factors, Mr. Washburn said. This, he said, was the terrain over which the armies would combat.

The same he said was true of North Dakota. "I have seen the valley of the Danube, valleys in Manchuria and in other lands that are famed for their fertility and prosperity. I can safely say that I have not in all of this time found a valley superior to North Dakota. Plainly it is not the native soil that is at fault in North Dakota."

The second factor, he said, adding that North Dakotans wrong the land from the Indians, met pioneer hardships and triumphed, went through all the vicissitudes of the early days. The fact that the pioneers held on proves that North Dakota people have stamina, he said.

Morale Big Problem. The situation thus was reduced to two specific problems, he said, and of these morale is one. The basis for morale, he said, is faith, first in the action, second in the justice of one's cause and, and with it a feeling of personal responsibility. During the war, he said, oftentimes people run from the front lines and are stopped in the rear. They inevitably are those who say that the war is lost, while at the same time in the front lines will be found troops with the morale that spells victory.

The fact that some people may leave the state does not hurt, he said. If, however, they leave the state "knocking" it they may damage its credit.

"Where one pulls out thousands are sticking," he said. "The publicity is given to those who leave, it ought to go to those who stay." Examining, he said, presents the problems of any other business. It was apparent, he said, that wheat raising was raised to a gigantic scale and continued in western Canada after the war. Bonanza farming is rampant there. The same is true of Argentina and France for the first time in years has an exportable wheat surplus. Canada he said, raises almost enough wheat to supply the United States.

Diversification Remedies Those who have succeeded are those who saw the handwriting on the wall, and adapted themselves by taking up diversified farming, he said. Nearly every business has had to face the trend of events and adapt itself. A half century ago, he said, the name Studebaker was associated with wagons and buggies. Because the founders of the business foresaw the change in transportation it still is a great business concern, but making automobiles, he said.

North Dakota farmers, he said, cannot compete with western Canada wheat growers, where costs of production are two-thirds less, due to increased production. "While one can see that difficulties have been encountered there is none that means a real setback to this state," he said.

Fuel Is Valuable

While people generally are thinking of North Dakota as a state of diversified crops, they also should think of it as a coming industrial state, he said. The whole trend of industry now is to associate raw materials, markets and fuel close together, and of these, fuel is becoming the most important. "North Dakota's six hundred billion tons of lignite coal offers the fuel, he said. "If we had no agriculture the fuel still would be valuable," he said.

Mr. Washburn said that Secretary Coad was assisted for paying \$7,000,000 for Alaska. Yet since that time \$500,000,000 of mineral wealth has been taken out.

People leaving North Dakota he declared, are leaving one of the richest states in the union in potentialities. Faith is needed, and it is well founded, he said. He urged a united and studied effort of the resources of North Dakota, and consistent boosting. He remarked that Japan, with 15,000 tillable square miles, almost wholly feeds a population of 40,000,000.

BUT THE PILOTS ESCAPED UNINJURED

The plane guided by Pilot Thierry crashed near Le Bourget during the Grand Prix races, which were conducted by the Aero Club of France. Escape of pilot and mechanic was miraculous. With a third man they see their pride burn.

COMPANY TO REJECT LEASE OF CONVICTS

National Committee on Prisons and Prison Labor Declares Victory Scored

Washington, Oct. 6.—An important victory has been scored in the fight against the contract system of convict labor in the decision of the Reliance Manufacturing Company, of Chicago, a dominant factor in the field of contract convict labor, not to accept "any further contracts from government."

The announcement recently by the National Committee on Prisons and Prison Labor, declares that the "campaign to abolish the old system of contract labor for a new system," based on the theory "that prisons should produce commodities exclusively for the needs of government and not for competitive markets," has received valuable stimulus in the decision of the Reliance Manufacturing Company.

"This is the greatest victory over the contract system of convict labor that has been scored since the fight against this system of prisoner exploitation was started more than 10 years ago," declared Dr. E. Stargis Whittin, executive director of the National Committee on Prisons and Prison Labor.

The announcement is signed jointly by the International Association of Garment Manufacturers and the Reliance Manufacturing Company and states that the latter company has joined forces with the emergency drive committee of the association in its campaign to assist state and city governments in establishing industries to produce commodities for the states' own needs instead of for sale upon the open market directed against the evils of the prison labor system," said Dr. Whittin, "we deemed that we were not justified in attacking an admittedly vicious system unless we were prepared to substitute something better."

The Reliance Manufacturing Company has investigated the plan and is willing to surrender its hold on the prison contract field for the good of the state governments involved."

After years of hard work directed against the evils of the prison labor system," said Dr. Whittin, "we deemed that we were not justified in attacking an admittedly vicious system unless we were prepared to substitute something better."

The Reliance Manufacturing Company has investigated the plan and is willing to surrender its hold on the prison contract field for the good of the state governments involved."

FLAX OUTPUT INSUFFICIENT

Washington, Oct. 6.—Experts of the department of agriculture, in their studies of the wheat situation, are giving consideration to the possibility of increasing flax acreage in the northwest by shifting from wheat and other crops. They point out that the United States this year is producing only about one-third of its flaxseed requirements. It is estimated that at least 20,000,000 bushels of flaxseed, or its oil equivalent, will have to be imported from abroad during the year and during the next year.

Brother of Dr. Coulter Dies

Fargo, N. D., Oct. 5.—C. C. Coulter, 47, brother of Dr. John Lee Coulter, president of the North Dakota Agricultural college here, died at noon yesterday at his home near Mallory, Minn., according to word received from Dr. Coulter, who was at the bedside when death came. Mr. Coulter, who was a prominent farmer near Mallory, had been ill for some time.

CONDITION OF N. Y. BANKS

New York, Oct. 6.—The actual condition of clearing house banks and trust companies for the week shows an excess in reserve of \$15,960,210. This is a decrease of \$7,190,850.

SHOWERS SEEN FOR NEXT WEEK

Washington, Oct. 6.—Weather outlook for the week beginning Monday: Region of Great Lakes—Considerable cloudiness, occasional showers probable; temperature near normal. Upper Mississippi Valley—Considerable cloudiness; showers first half of week; temperature above normal first half of week; cooler latter half, probably frost.

CORN CROP NEWS SOUGHT

Association of Commerce Receiving Inquiries on Subject

News of the big corn crop of North Dakota is filtering through to states south of us. A. P. Bradley, secretary of the Association of Commerce, today stated that numerous inquiries are being received at his office regarding the corn crop of this section, the inquiries coming from Iowa, Wisconsin and Illinois.

Director of the Burleigh County Cow Testing association, organized recently, will hold a meeting here next Saturday to consider progress of the organization.

Mr. Bradley has been invited to be on the program of the National Association of Commercial Organizations. Secretaries of Cincinnati and the latter part of this month. He expects to utilize the opportunity to get facts concerning North Dakota's wealth and possibilities before commercial organization bodies from all parts of the country.

FIRE CAUSES HEAVY LOSS

Business District of South Dakota Town Is Gutted

Watertown, S. D., Oct. 6.—Fire of unknown origin early this morning destroyed a large portion of the business section of South Shore, 18 miles north of Watertown. Eight business buildings were burned at a loss estimated at \$150,000, according to members of the Watertown fire department who answered a call for assistance. The fire covered the main part of the east side of the main business street. Insurance is estimated at \$75,000.

FOUND GUILTY OF MURDER

Paducah, Ky., Oct. 6.—Mrs. Henrietta Wagner, 60, was adjudged guilty of the murder of Rosetta Warren and her unborn child who were blown by dynamite here last April and sentenced to life imprisonment today.

MEMBERSHIP OF RED CROSS TO BE DOUBLED THROUGH CAMPAIGN

The Red Cross membership in Burleigh county will be doubled as a result of the present campaign, it was indicated today as reports continued to come in of the progress of the campaign.

The amount of money realized from the drive may not be as large as the goal, but the fact that the membership will be doubled and a large amount of money provided to carry on the activities has brought cheer to those in charge of the campaign.

Tag day was being observed in Bismarck today, with a number of school girls on the streets to see that anyone who had been missed

GASOLINE TAX LICENSE BOOST, FOR N. D. ROADS

State Engineer Black, at Devils Lake Meeting, Urges Means to Raise Cash

State Engineer W. G. Black favors a gasoline tax and an increase in automobile registration fees in North Dakota to provide funds for building a system of state trunk highways.

Mr. Black made known his ideas at a good roads meeting held in Devils Lake Tuesday.

The state engineer proposed an increase in automobile license fees to about double the present scale, with a \$12 annual minimum license fee. He also urged a change from the present state law which deprecates the automobile license fee as the age of the car increases, asserting that a car two years old will be run on the roads as much as a new car.

About \$700,000 is collected annually in motor vehicle fees. Of this amount \$150,000 is used to meet overhead expenses of the highway commission and motor vehicle department, he said, while \$150,000 goes to build bridges and the remaining \$400,000 is pro rated among the counties.

With an increased registration fee and an increased automobile license fee the state could build trunk highways without asking county participation, he said.

LLOYD GEORGE ON HIS WAY

New York, Oct. 6.—David Lloyd George left New York for Montreal today on the first leg of his tour to the United States and Canada. His party was aboard a five-car special train.

After being guided by police through a cheering throng of admirers in the Grand Central station the dapper little Welshman and his wife were established in the private car, Ottawa, in which as guests of Sir Henry Thornton, president of the Canadian National Railways, they will live throughout their tour.

RODGERS WINS FROM VASSELL

Minot, N. D., Oct. 6.—Stanley Rodgers of Bismarck last night captured the heavyweight championship of the state from George Vassel of Minot by crippling his opponent with toe holds after one hour and 35 minutes. Vassel was unable to continue after the third toe-hold in rapid succession had rendered his left useless. The match was spectacular and was witnessed by a large crowd.

RED TRAIL TO BE IMPROVED MANY PLACES

Extensive Graveling Projects Now Under Way in Eastern Part of State

BIG CONTRACTS LET

Entire Route From Jamestown to Fargo to be Graveled by End Next Year

Extensive improvements are being made on the Red Trail, the Twin Cities-Pacific coast trans-continental highway route in North Dakota and much work will be done next year, according to C. A. Byrnes, assistant state engineer, who has returned from conferences with counties officials in the eastern part of the state.

By the end of next year the trail will be completely gravelled between Jamestown and Fargo, he said. It is now gravelled in Burleigh county and part of the way in Kidder county.

An 18-mile graveling project will be completed this fall, carrying the gravel from Wheatland to Minot, Cass county, he said. The trail already is gravelled from Maple to Fargo, a distance of 14 miles.

Barnes county is doing much graveling between Tower City at the Cass county line, and Valley City. A gap of 13 miles from a point west of Wheatland to Tower City will be left this fall, and the stretch now is being surveyed for graveling next year.

Surveys are being made in Barnes and Stutsman county, between Jamestown and Valley City, for the purpose of letting contracts for the graveling of the gaps between these counties.

Considerable improvement also is planned on the Red Trail west of Bismarck, including the paving and repaving work between Bismarck and Mandan. The state of Minnesota has let contracts for graveling a long stretch between Moorhead and towns east on the Detroit road.

SOLONS READY FOR SESSION

Call Issued For Meeting of Legislature on Oct. 17

Oklahoma City, Oct. 6.—Oklahoma's tangled skein of political chaos assumed further complications today as members of the state legislature continued preparations for their second attempt to convene in extraordinary session to consider impeachment charges against Gov. Walton.

Legislators are already reported gathering in Oklahoma City for a session on Oct. 17 in response to a call by W. D. McBee of Steffens county heading more than a majority of the lower house membership. Attention was last night focused on the executive mansion with the expectation that Governor Walton would define his attitude toward the meeting.

In the absence of an official statement the governor would quartered at the military measures by which he prevented the lawmakers from meeting at their own call on September 28.

Meanwhile a new element entered the situation with the announcement by a group of women that they will join forces of Governor Walton in his effort to prevent the legislature from meeting under a constitutional amendment passed in last Tuesday's election.

Increased at the "sacrifice" of the constitutional amendment declaring eligibility of women as elective state officers in favor of the legislative amendment on impeachment the Mrs. M. L. Fite of Tushnet, vice chairman of the state Democratic committee, that they had employed counsel to press the governor's injunction to restrain the state board from certifying the election returns.

They claim that the election which they sponsored failed because of excessive interest displayed in the amendment empowering the legislature to meet at its own call, since it required a majority of the total vote to pass.

Hearing for a permanent injunction on the governor's contention that the election was illegal inasmuch as it had been postponed by executive decree has been set for next Tuesday.

BACKWARD BOY KILLS HIMSELF

Catskill, N. Y., Oct. 6.—Frank Jones, 14, shot and killed himself with his father's shot-gun yesterday because he was behind in his studies and had been reprimanded by his teacher. A note to his parents from his school principal complaining of his backwardness was found in his pocket.

Italic type was invented in 1521 by a printer of Venice.

STRESEMANN KEEPS POST IN CABINET

New Ministers Named, Chancellor Taking Also Portfolio of Foreign Affairs

ONE NOT FILLED

Dr. Hans Luth, Prominent Figure in Political Battles, Takes a Post

Berlin, Oct. 6.—Chancellor Stresemann today completed the formation of his new cabinet in which he will act as minister of foreign affairs as well as chancellor with Dr. Hans Luth taking the portfolio of minister of finance and Herr Koeth that of Public Economy.

The cabinet as now announced follows: Chancellor and Minister of Foreign Affairs—Dr. Gustav Stresemann. Minister of Interior—Wilhelm Sollmann.

Minister of Finance—Dr. Hans Luth. Minister of Labor—Heinrich Brauns. Minister of Public Economy—Dr. Koeth.

Minister of Justice—Gustav Radbruch. Minister of Reichswahr—Dr. Otto Gessler.

Minister of Posts—Herr Hoefe. Minister of Communications—Rudolph Offer. Minister of Occupied Regions—Johannes Fuchs.

Minister of Reconstruction—Robert Schmidt. The post of minister of supplies remains unfilled.

NOT A SEPARATIST Munich, Oct. 6.—Dr. Von Kahr, Bavarian military dictator, today declared that reports that he favored restoration of the monarchy were without foundation. He said he was not a separatist but on the contrary stood for a strong state authority in the interest of the entire republic.

ASKS GREATER FAVOR London, Oct. 6.—Chancellor in his speech before the German Reichstag today said, according to the Berlin correspondent of the Central News, that the Reichstag would be asked to renounce its powers for a long time and grant powers to the cabinet much greater than has ever been given the cabinet before.

FOREIGN DEBTS TO U. S. STAY

Coolidge Is Not in Favor of Cancellation Plan

Washington, Oct. 6.—President Coolidge is unalterably opposed to the cancellation by the United States of the debt owed it by the European countries, it was said at the White House.

The president's views on cancellation were reiterated when his attention was called to reports of a statement that Walter W. Head, of Omaha, newly elected president of the American Bankers' Association, had urged cancellation. Mr. Head later, however, denied the authenticity of the remarks attributed to him.

The president feels that the United States should not unduly press any of its debtors and should be liberal in the settlement it makes. An instance of the desire to be liberal is contained in the president's opinion, in the settlement reached with Great Britain which from a strict mathematical viewpoint was a releasing of Great Britain from a portion of its obligation. Debt questions are in the hands of funding commission created by act of congress and the position of Mr. Coolidge is that the United States may only make settlement within the terms of the act.

STRESEMANN HECKLED Berlin, Oct. 6.—When Chancellor Stresemann presented his reconstructed cabinet to the Reichstag he was nettled by interruptions from the opposition parties and once turned to the President of the Reichstag, Pauline Loeb, with a request that order be restored.

PROBES BOSTON BALL CLUBS

Boston, Oct. 6.—District Attorney O'Brien of Suffolk county said today that he had begun an investigation of the ownership and management of the Boston clubs of both the American and National Leagues upon petition of Boston citizens.

The district attorney said that the petitioners alleged fraud on the part of both clubs in the matter of transfer of players to other clubs and failing to cause their players to do their best to win games.

Hypnotic influence instead of an anesthetic has been used in dental operations in England.

DECAPITATED BODY IDENTIFIED

Pittsburgh, Oct. 6.—The decapitated body found in the girl's dressing room of a city swimming pool here four days ago was identified as that of Charles "Chuck" McGregor Kittingham, Pa., a veteran of the world war. E. E. Blaby, formerly of Kittingham, identified the body. Blaby said he worked with McGregor for several years.

FLOUR MUST BE PURCHASED OF STATE'S MILL

State Board of Administration Orders It Used for All Institutions

REGARDLESS OF BIDS

No Bids Will Be Called For in the Future for Supplying Institutions with Flour

Flour for North Dakota state institutions will be purchased from the state mill at Grand Forks in the future. An order to this effect has been in existence for some time, E. G. Wanner, secretary of the board of administration, said today in response to criticism that flour for the state insane hospital at Jamestown had been purchased from privately owned mills.

Contract for supplying flour for the state hospital for the insane at Jamestown was let to privately owned mills for the quarter beginning July 1, on competitive bids, according to the board records. The Baldwin Milling Company of Minneapolis offered to furnish the flour required for \$2,832.50 while the state mill and elevator bid \$2,700 and another private mill submitted a higher bid. Contract was let to the Baldwin company by M. E. McIntyre, purchasing agent.

"Mr. McIntyre let the contract to the lowest bidder, as the law requires him to do," said Mr. Wanner. "However, when the board learned of the purchase it issued an order to the effect that flour for state institutions, except in instances to meet emergency requirements, be purchased from the state mill at Grand Forks."

The law will not be violated in buying the flour, because bids will not be asked, it was explained. The board, however, it is understood will expect the state mill to furnish flour at a price about equal to that of private mills.

One of the companies which will be prevented from bidding for the supplying of flour to the state hospital for the insane at Jamestown, under the order is the Russell-Miller Milling Company at Jamestown.

The house cost approximately \$3,000, its present value was fixed at approximately \$6,500 by appraisers and the highest bid, that of F. C. Hanson, was \$4,810.00, it was said. Other bidders were Jacob Horner and R. E. Wenzel.

It was stated at the commission offices that unless the commission obtained bids approximating the present appraised value of the house it will be rented. It was empty today, G. N. Keniston having moved out of it.

HAGAN HOUSE BIDS REJECTED

Held Too Low by Members of Industrial Commission

The state industrial commission has rejected three bids made for the purchase of the John N. Hagan house on North Fifth street, which was turned back to the Home Building Association by Mr. Hagan, it was announced today at the office of the Industrial Commission.

The house cost approximately \$3,000, its present value was fixed at approximately \$6,500 by appraisers and the highest bid, that of F. C. Hanson, was \$4,810.00, it was said. Other bidders were Jacob Horner and R. E. Wenzel.

It was stated at the commission offices that unless the commission obtained bids approximating the present appraised value of the house it will be rented. It was empty today, G. N. Keniston having moved out of it.

LOCALS LEAD END OF THIRD

Final score: Bismarck 14; Valley City 9.

Bismarck high school was leading the Valley City Teachers' college eleven 8 to 0 at the end of the third quarter in today's football game.

A safety in the first and a touchdown in the third quarter made up the score.

DEMOLAY ELECTS Jamestown, Oct. 6.—Valley City was chosen as the next meeting place for the annual convention of the Order of the Demolay of North Dakota. Officers are: President, Robert Clendenning, Jamestown; First Vice-President, Mr. Dahl, Valley City; Second Vice-President, Mr. Yochim, Fargo; Chaplain, Mr. McFall, Minot; Sentinel, Mr. Caselli, Ellendale.

NEW EFFORT TO DISLODGE TRIO IS UNDER WAY

Ammonia Is Brought From Paducah to Be Used in the Onslaught

PRISONERS HOLD ON

Not Dislodged from Fortress After Three Days of Intensive Struggle

Eddyville, Ky., Oct. 6.—Behind armor plate, drawn into position by a truck also protected by the plate, Lieut. Joseph M. Kelley and Private Jack McNight took up a position between the dining hall and hospital at the state penitentiary here at 10:30 today prepared to throw hand grenades into the fortress of the three convicts simultaneously with an attack to be made by the releasing of ammonia. Two of the convicts had been seen when another attempt will be made to dislodge the men.

Eddyville, Ky., Oct. 6.—The bullet-riddled two-story mess hall on the ground of the western state penitentiary was the center of a ring today. The fourth day of the "seige of Eddyville" arrived and the armed forces of the state of Kentucky were yet to enter the improvised fortress of Monte Walters, Lawrence Griffiths and Harry Ferland, convicted murderers.

Since early Wednesday the three gunmen have held the barricade and yielded in the face of machine gun and rifle fire that crumbled two galling holes in the walls of the building, a bombardment of gas bombs and a barrage of rifle grenades.

Three of the four guards shot down in the convicts' break for liberty are dead.

The prison was under military rule today. Three members of the state board of charities and corrections were on the ground. Half a hundred Kentucky National Guardsmen were bivouacked in the shadows of the prison walls. Military censorship of press dispatches was inaugurated for a short time last night but was abandoned on presentation to authorities of a vigorous protest by newspaper correspondents here to "cover the seige."

There was a notable increase in the tense atmosphere in the vicinity of the prison today and the feeling was apparent that the gunmen who have made good for three days and three nights in their desperate stand would soon be dislodged. Three hundred pounds of 100 proof ammonia was expected to arrive from Paducah today. Sufficient equipment was available to carry the ammonia to a point where it could be released into the building.

CABLE BROKEN

Eddyville, Ky., Oct. 6.—Instant suspension of the water, light and power supply here and at the penitentiary a mile from here occurred today due to what is thought to have been the shattering of the main electric light and power cable at the penitentiary by random firing of state guards.

The break is thought to be at a point where the cable runs along the mess hall.

Drinking water for the prisoners is being carried to the prisoners from a pond in the enclosure.

ASKS RETURN OF 2 MEN

Governor Issued Requisition for Cass, Cavalier Co. Authorities

Requisitions for the return to North Dakota of two men were forwarded to the Governor of Minnesota today by the secretary of the state.

Governor Nestos, on request of Cass county authorities, issued a requisition for the return of Adolph Carlson, charged with administering intoxicating liquor to Cass County, Minn., a minor, in Cass County, Minn., being the county of origin. The requisition was issued for the return of Carlson, who was arrested in Minnesota, to the authorities of Cass County, Minn., for trial.

Requisition was also issued for the return of a man named W. H. Halgerson, charged with the same offense, growing out of a grand jury indictment of \$2,080 as administrator of an estate and disposing of property subject to lien.

FLIES INVADE ENGLAND Deal Fought Oct. 6.—Legions of flies have been invading the coast coming across the channel from Europe. Long dark swarms of them can be seen floating above the horizon.

Potatoes were once described as the forbidden fruit which caused the fall of Adam.

AMMONIA USED IN CONVICT SEIGE

STATE FAITH IS NECESSARY FOR BUILDING

Major Stanley Washburn Approaches Agricultural Problem from New Angle

FUNDAMENTALLY SOUND

Everything Is in State to Make it one of Richest in Union, He Says

North Dakota's chief trouble is within herself, Major Stanley Washburn, of the Washburn Lignite Coal Company, declared here today after a tour of the state investigating conditions.

"North Dakota's fundamental trouble right now is loss of morale," Mr. Washburn declared. In looking over the situation, he said, he approached it from the same angle he had approached the task of a war correspondent with 20 armies and in 100 battles in his experience.

The first thing to look for in sizing up a military situation is the constant factors, Mr. Washburn said. This, he said, was the terrain over which the armies would combat.

The same he said was true of North Dakota. First, one should consider the ground.

"I have been around the world five times, and there is hardly a country north of the equator I have not seen," he said. "I have seen the valley of the Danube, valleys in Manchuria and in other lands that are famed for their fertility and prosperity."

He would not say that I have not seen in all of this time found a valley superior to North Dakota. Plainly it is not the native soil that is at fault in North Dakota.

The second factor, he said, was the character of the people, adding that North Dakotans wrong the land from the Indians, met pioneer hardships and triumphed, went through all the vicissitudes of the early days. The fact that the pioneers did hold on proves that North Dakota people have stamina, he said.

Morale Big Problem. The situation thus was reduced to two specific problems, he said, and of these morale is one.

The basis for morale, he said, is faith, first in the nation, second in the justice of one's cause and self, and with it a feeling of personal responsibility. During war, he said, oftentimes people run from the front lines and are stopped in the rear. They inevitably are those who say that the war is lost, while at the same time in the front lines will be found troops with the morale that spells victory.

The fact that some people may leave the state does not hurt, he said. If, however, they leave the state "knocking" it they may damage its credit.

"Where one pulls out thousands are sticking," he said. "The public city is given to those who leave, it ought to go to those who stick."

Farming, he said, presents the problems of any other business. It was apparent, he said, that wheat raising was raised to a gigantic scale and continued in western Canada after the war. Bonanza farming is rampant there. The same is true of Argentina and France for the first time in years has an exportable wheat surplus. Canada, he said, raises almost enough wheat to supply the United States.

Diversification Remedies. Those who have succeeded are those who saw the handwriting on the wall, and adapted themselves by taking up diversified farming, he said. Nearly every business has had to force the trend of events and adapt itself. A half century ago, he said, the name Studebaker was associated with wagons and buggies. Because the founders of the business foresaw the change in transportation it still is a great business concern, but making automobiles, he said.

North Dakota farmers, he said, cannot compete with eastern Canada wheat growers, whose costs of production are two-thirds less, due to increased production. "While one can see that difficulties have been encountered there is none that means a real setback to this state," he said.

Fuel Is Valuable. While people generally are thinking of North Dakota as a state of diversified crops, they also should think of it as a coming industrial state, he said. The whole trend of industry now is to associate raw materials, markets and fuel close together, and of these, fuel is becoming the most important. "North Dakota's six hundred billion tons of lignite coal offers the fuel, he said.

"If we had no agriculture the fuel still would be valuable," he said.

Mr. Washburn said that Secretary Seward was satisfied for paying \$7,000,000 for Alaska. Yet since that time \$500,000,000 of mineral wealth has been taken out.

People leaving North Dakota, he declared, are leaving one of the richest states in the union in potentialities. Faith is needed, and it is well founded, he said. He urged a united and studied effort of the resources of North Dakota, and consistent boosting. He remarked that Japan, with 36,000 square miles, almost wholly from a population of 50,000,000.

CORN CROP NEWS SOUGHT

Association of Commerce Receiving Inquiries on Subject

News of the big corn crop of North Dakota is filtering through to states south of us. A. F. Bradley, secretary of the Association of Commerce, today stated that numerous inquiries are being received at his office regarding the corn crop of this section, the inquiries coming from Iowa, Wisconsin and Illinois.

Director of the Burleigh County Cow Testing association, organized recently, will hold a meeting here next Saturday to consider progress of the organization.

FIRE CAUSES HEAVY LOSS

Business District of South Dakota Town Is Gutted

Watertown, S. D., Oct. 6.—Fire of unknown origin early this morning destroyed a large portion of the business section of South Shore, 18 miles north of Watertown. Eight business buildings were burned at a loss estimated at \$150,000, according to members of the Watertown fire department who answered a call for assistance. The fire covered the main part of the east side of the main business street. Insurance is estimated at \$75,000.

FOUND GUILTY OF MURDER

Paducah, Ky., Oct. 6.—Mrs. Henrietta Wagner, 60, was adjudged guilty of the murder of Rosetta Warren and her unborn child who were blown by dynamite here last April, and sentenced to life imprisonment today.

MEMBERSHIP OF RED CROSS TO BE DOUBLED THROUGH CAMPAIGN

The Red Cross membership in Burleigh county will be doubled as a result of the present campaign; it was indicated today as reports continued to come in of the progress of the campaign.

The amount of money realized from the drive may not be as large as the goal, but the fact that the membership will be doubled and a large amount of money provided to carry on the activities has brought cheer to those in charge of the campaign. Tag day was being observed in Bismarck today, with a number of school girls on the streets to see that anyone who had been missed

GASOLINE TAX LICENSE BOOST, FOR N. D. ROADS

State Engineer Black, at Devils Lake Meeting, Urges Means to Raise Cash

State Engineer W. G. Black favors a gasoline tax and an increase in automobile registration fees in North Dakota to provide funds for building a system of state trunk highways.

Mr. Black made known his ideas at a good roads meeting held in Devils Lake Tuesday.

The state engineer proposed an increase in automobile license fees to about double the present scale, with a \$12 annual minimum license fee. He also urged a change from the present state law which decreases the automobile license fee as the age of the car increases, asserting that a car two years old will be run on the roads as much as a new car.

About \$700,000 is collected annually in motor vehicle fees. Of this amount \$150,000 is used to meet overhead expenses of the highway commission and motor vehicle department, he said, while \$130,000 goes to build bridges and the remaining \$420,000 is pro rated among the counties.

LYDD GEORGE ON HIS WAY

New York, Oct. 6.—David Lloyd George left New York for Montreal today on the first lap of his tour to the United States and Canada. His party was aboard a five-car special train.

After being guided by police through a cheering throng of admirers in the Grand Central station the dapper little Welshman and his wife were established in the private car, Ottawa, in which as guests of Sir Henry Thornton, president of the Canadian National Railways, they will live throughout their tour.

RODGERS WINS FROM VASELL

Minot, N. D., Oct. 6.—Stanley Rodgers of Bismarck last night captured the heavyweight championship of the state from George Vassell, of Minot, by crippling his opponent with toe holds after one hour and 35 minutes. Vassell was unable to continue after the third toe-hold in rapid succession had rendered his left useless. The match was spectacular and was witnessed by a large crowd.

BACKWARD BOY KILLS HIMSELF

Canajoharie, N. Y., Oct. 6.—Frank Jones, 14, shot and killed himself with his father's shotgun yesterday because he was behind in his studies and had been reprimanded by his teacher. A note to his parents from his school principal complaining of his backwardness was found in his pocket.

RED TRAIL TO BE IMPROVED MANY PLACES

Extensive Graveling Projects Now Under Way in Eastern Part of State

BIG CONTRACTS LET

Entire Route From Jamestown to Fargo to be Graveled by End Next Year

Extensive improvements are being made on the Red Trail, the Twin Cities—Pacific coast trans-continental highway route, in North Dakota and much work will be done next year, according to C. A. Myhre, assistant state engineer, who has returned from conferences with county officials in the eastern part of the state.

By the end of next year the trail will be completely gravelled between Jamestown and Fargo, he said. It is now gravelled in Burleigh county and part of the way in Kidder county.

An 18-mile graveling project will be completed this fall, carrying the gravel from Wheatland to Mapleton, Cass county, he said. The trail already is gravelled from Maple to Fargo, a distance of 14 miles.

Barnes county is doing much graveling between Tower City at the Cass county line, and Valley City. A gap of 13 miles from a point west of Wheatland to Tower City will be left this fall, and the stretch now is being surveyed for graveling next year. Surveys are being made in Barnes and Sully counties, between Jamestown and Valley City, for the purpose of letting contracts for the graveling of the gaps between those cities.

Considerable improvement also is planned on the Red Trail west of Bismarck, including the paving and under-pass work between Bismarck and Mandan. The state of Minnesota has let contracts for graveling a long stretch between Moorhead and towns east on the Detroit road.

SOLONS READY FOR SESSION

Call Issued For Meeting of Legislature on Oct. 17

Oklahoma City, Oct. 6.—Oklahoma's tangled skein of political chaos assumed further complications today as members of the state legislature continued preparations for their second attempt to convene in extraordinary session to consider impeachment charges against Gov. Walton.

Legislators are already reported gathering in Oklahoma City for a session on Oct. 17 in response to a call by W. D. McBee of Steffens county heading more than a majority of the lower house membership.

In the absence of an official statement doubt was expressed in some quarters that the governor would adopt the military measures by which he prevented the law-makers from meeting at their own call on September 26.

Meanwhile a new element entered the situation with the announcement by a group of women that they will join forces with Governor Walton in his effort to prevent the legislature from meeting under a constitutional amendment passed in last Tuesday's election.

In the "sacrifice" of the constitutional amendment declaring eligibility of women as elective state officers in favor of the legislative amendment on impeachment the woman declared last night through Mrs. R. L. Fite of Tulsa, vice chairman of the state Democratic committee, that they had employed counsel to press the governor's injunction to restrain the state board from certifying the election returns.

They claim that the election which they sponsored failed because of excessive interest displayed in the amendment empowering the legislature to meet at its own call, since it required a majority of the total vote to pass.

Hearing for a permanent injunction on the governor's contention that the election was illegal may, much as it had been postponed by executive decree has been set for next Tuesday.

STRESEMANN KEEPS POST IN CABINET

New Ministers Named, Chancellor Taking Also Portfolio of Foreign Affairs

ONE NOT FILLED

Dr. Hans Luther, Prominent Figure in Political Battles, Takes a Post

Berlin, Oct. 6.—Chancellor Stresemann today completed the formation of his new cabinet in which he will act as minister of foreign affairs as well as chancellor with Dr. Hans Luther taking the portfolio of minister of finance and Herr Koeth that of public economy.

The cabinet as now announced follows: Chancellor and Minister of Foreign Affairs—Dr. Gustav Stresemann. Minister of Interior—Wilhelm Sollmann. Minister of Finance—Dr. Hans Luther. Minister of Labor—Heinrich Brauns. Minister of Public Economy—Dr. Koeth. Minister of Justice—Gustav Radbruch. Minister of Reichswehr—Dr. Otto Gessler. Minister of Posts—Herr Hoefe. Minister of Communications—Rudolph Oser. Minister of Occupied Regions—Johannes Fuchs. Minister of Reconstruction—Robert Schmidt.

The post of minister of supplies remains unfilled.

STRESEMANN KEEPS POST IN CABINET

New Ministers Named, Chancellor Taking Also Portfolio of Foreign Affairs

ONE NOT FILLED

Dr. Hans Luther, Prominent Figure in Political Battles, Takes a Post

Berlin, Oct. 6.—Chancellor Stresemann today completed the formation of his new cabinet in which he will act as minister of foreign affairs as well as chancellor with Dr. Hans Luther taking the portfolio of minister of finance and Herr Koeth that of public economy.

The cabinet as now announced follows: Chancellor and Minister of Foreign Affairs—Dr. Gustav Stresemann. Minister of Interior—Wilhelm Sollmann. Minister of Finance—Dr. Hans Luther. Minister of Labor—Heinrich Brauns. Minister of Public Economy—Dr. Koeth. Minister of Justice—Gustav Radbruch. Minister of Reichswehr—Dr. Otto Gessler. Minister of Posts—Herr Hoefe. Minister of Communications—Rudolph Oser. Minister of Occupied Regions—Johannes Fuchs. Minister of Reconstruction—Robert Schmidt.

The post of minister of supplies remains unfilled.

NOT A SEPARATIST. Munich, Oct. 6.—Dr. Von Kahr, Bavarian military dictator, today declared that reports that he favored restoration of the monarchy was without foundation. He said he was not a separatist but on the contrary stood for a strong state authority in the interest of the entire republic.

FOREIGN DEBTS TO U. S. STAY

Coolidge Is Not in Favor of Cancellation Plan

Washington, Oct. 6.—President Coolidge is unalterably opposed to the cancellation by the United States of the debt owed it by the European countries, it was said at the White House.

The president's views on cancellation were reiterated when his attention was called to reports of a statement that Walter W. Head, of Omaha, newly elected president of the American Bankers' Association, had urged cancellation. Mr. Head, later, however, denied the authenticity of the remarks attributed to him.

The president feels that the United States should not unduly press any of its debtors and should be liberal in the settlement it makes. An instance of the desire to be liberal is contained in the president's opinion, in the settlement reached with Great Britain which from a strict mathematical viewpoint was a relaxation of Great Britain from a portion of its obligation. Debt questions are in the hands of funding commission created by act of congress and the position of Mr. Coolidge is that the United States may only make settlement within the terms of the act.

STRESEMANN HECKLED

Berlin, Oct. 6.—When Chancellor Stresemann presented his reconstructed cabinet to the Reichstag he was nettled by interruptions from the opposition parties and once turned to the President of the Reichstag, Pauline Loeb, with a request that order be restored.

PROBES BOSTON BALL CLUBS

Boston, Oct. 6.—District Attorney O'Brien of Suffolk county said today that he had begun an investigation of the ownership and management of the Boston clubs of both the American and National Leagues upon petition of Boston citizens.

The district attorney said that the petitioners alleged fraud on the part of both clubs in the matter of transfer of players to other clubs and failing to cause their players to do their best to win games.

DECAPITATED BODY IDENTIFIED

Pittsburgh, Oct. 6.—The decapitated body found in the girl's dressing room of a city swimming pool here four days ago was identified as that of Charles "Chuck" McGregor Kitting, Pa., a veteran of the world war. R. K. Bixby, formerly of Kitting, identified the body. Bixby said he worked with McGregor for several years.

FLOR MUST BE PURCHASED OF STATE'S MILL

State Board of Administration Orders It Used for All Institutions

REGARDLESS OF BIDS

No Bids Will Be Called For in the Future for Supplying Institutions with Flour

Flour for North Dakota state institutions will be purchased from the state mill at Grand Forks in the future. An order to this effect has been in existence for some time, E. G. Wanner, secretary of the board of administration, said today in response to criticism that flour for the state insane hospital at Jamestown had been purchased from privately owned mills.

Contract for supplying flour for the state hospital for the insane at Jamestown was let to privately owned mills for the quarter beginning July 1, on competitive bids, according to the board records. The Baldwin Milling Company of Minneapolis offered to furnish the flour required for \$2,882, while the state mill and elevator bid \$2,700 and another private mill submitted a higher bid. Contract was let to the Baldwin company by M. E. McIntyre, purchasing agent.

"Mr. McIntyre let the contract to the lowest bidder, as the law requires him to do," said Mr. Wanner. "However, when the board learned of the purchase it issued an order to the effect that flour for state institutions, except in instances to meet emergency requirements, be purchased from the state mill at Grand Forks."

The law will not be violated in buying the flour, because bids will not be asked, it was explained. The board, however, it is understood, will expect the state mill to furnish flour at a price about equal to that of private mills.

One of the companies which will be prevented from bidding for the supplying of flour to the state hospital for the insane at Jamestown, under the order is the Russell-Miller Milling Company at Jamestown.

NEW EFFORT TO DISLODGE TRIO IS UNDER WAY

Ammonia Is Brought From Paducah to be Used in the Onslaught

PRISONERS HOLD ON

Not Dislodged from Fortress After Three Days of Intensive Struggle

Eddyville, Ky., Oct. 6.—Behind armor plate drawn into position by a truck also protected by the police. Lieut. Joseph M. Kelley and Private Jack McNight took up a position between the dining hall and hospital at the state penitentiary here at 10:30 today prepared to throw hand grenades into the fortress of the three convicts simultaneously with an attack to be made by the releasing of ammonia. Two o'clock this afternoon has been designated as the zero hour when another attempt will be made to dislodge the men.

Eddyville, Ky., Oct. 6.—The bullet-torn two-story mess hall on the ground of the western state penitentiary was the center of a ring today. The fourth day of the "seige of Eddyville" arrived and the armed forces of the state of Kentucky were yet to enter the improvised fortress of Monte Walters, Lawrence Griffiths and Harry Ferland, convicted murderers.

Since early Wednesday the three gunmen have held the barricades nor yielded in the face of machine gun and rifle fire that crumbled two gapped holes in the walls of the building, a bombardment of tear gas bombs and a barrage of rifle grenades.

Three of the four guards shot down in the convicts' break for liberty are dead.

The prison was under military rule today. Three members of the state board of charities and corrections were on the ground. Half a hundred Kentucky National Guardsmen were bivouacked in the shadows of the prison walls. Military censorship of press dispatches was inaugurated for a short time last night but was abandoned on presentation to authorities of a vigorous protest by newspaper correspondents here to "cover the seige."

There was a notable increase in the tense atmosphere in the vicinity of the prison today and the feeling was apparent that the gunmen who have made good for three days and three nights in their desperate stand would soon be dislodged. Three hundred pounds of 100 proof ammonia was expected to arrive from Paducah today. Sufficient equipment was available to carry the ammonia to a point where it could be released into the building.

HAGAN HOUSE BIDS REJECTED

Held Too Low by Members of Industrial Commission

The state industrial commission has rejected three bids made for the purchase of the John N. Hagan house on North Fifth street, which was turned back to the Home Building Association by Mr. Hagan, it was announced today at the office of the Industrial Commission.

The house cost approximately \$8,000, its present value was fixed at approximately \$4,500 by appraisers and the highest bid, that of E. C. Hanson, was \$4,010.00, it was said. Other bidders were Jacob Horner and R. E. Wenzel.

It was stated at the commission offices that unless the commission obtained bids approximating the present appraised value of the house it will be rejected. It was empty today, G. N. Keniston having moved out of it.

LOCALS LEAD END OF THIRD

Final score: Bismarck 14; Valley City 6.

Bismarck high school was leading the Valley City teacher's college eleven 8 to 0 at the end of the third quarter in today's football game.

A safety in the first and a touchdown in the third quarter made up the score.

DEMOLAY ELECTS

Jamestown, Oct. 6.—Valley City was chosen to be the next meeting place for the annual convention of the Order of the Demolay of North Dakota. Officers are: President, Robert Clendinning, Jamestown; Scribe, Sumner Buck, Jamestown; First Vice-President, Mr. Dahl, Valley City; Second Vice-President, Mr. Yochim, Fargo; Chaplain, Mr. McFall, Minot; Sentinel, Mr. Caselli, Ellendale.

FLIES INVADE ENGLAND

Deal, England, Oct. 6.—Legions of flies have been invading the coast, coming across the channel from Europe. Long dark patches of them can be seen floating above the channel.

Potatoes were once described as the forbidden fruit which caused the fall of Adam.

MANY CASES ON CALENDAR OF R. R. BODY

New Cases Filed and Decisions of Past Week Are Listed in Bulletin

SALE IS REQUESTED

Numerous new cases and decisions are listed in the weekly bulletin issued today by the state railroad commission.

New cases filed are listed as follows:

Northwestern Bell Telephone Co., Omaha, Nebraska. Application to abandon Toll Station at Lucas, North Dakota.

Dunn County Telephone Company, Dunn Center, N. D. Application to increase telephone rental rates 50 cents for business, and 25 cents for residence per month.

J. G. Robertson, St. Paul, Minnesota. Application to sell the property known as the Central Power Co. to the Central Light and Power Co., Washburn, North Dakota. Petition to issue 550 shares of preferred stock, 200 shares of common stock and \$60,000 of bonds.

Northwestern Bell Telephone Co., Omaha, Neb. Application to close Toll Station at Lake Upsilon, North Dakota.

Northwestern Bell Telephone Company, Omaha. Application to close Toll Station at Farmington, North Dakota.

Cases decided are as follows:

The Motor Transit Co. of Fergus Falls, Minnesota, was granted a Certificate of Public Convenience and necessity to operate a passenger service, Fargo, N. D. to Minnesota State Line; and, Washburn, N. D. to Minnesota State Line.

The petition of the Citizens of Platteville vs. Northern Pacific Railway Co., for stockyard facilities having been denied, the case is closed.

The Green Northern Railway Company having agreed to make the improvements asked for by the Citizens of Ayr, the case is closed.

The petition of the Citizens of Merida, N. D., for shelter while waiting for Soo Line trains having been satisfied, the case is closed.

The Northwestern Bell Telephone Company was granted permission to close its Toll Station at Farmington, North Dakota.

The City advised this Commission that there was present necessity for the upgrade crossings, they petitioned for in 1922, at Rugby, North Dakota, and the case is closed.

J. G. Robertson, of St. Paul, was granted permission to sell to the Central Light and Power Co. the property heretofore known as the Central Power Co. of Washburn.

The Midwest Power Company was granted permission to install an additional step in its power rate at New Rockford, N. D.

The Northwestern Bell Telephone Co. was given permission to close its Toll Station at Urbana, North Dakota.

Frank Garrison of Hurdfield, N. D. was granted permission to sell his electric plant at Hurdfield to Weiss Brothers.

The Northwestern Bell Telephone Co. was granted permission to close its Toll Station at Raums Ferry, North Dakota.

The Central Light and Power Co. was granted authority to issue 550 shares of preferred stock, 200 shares of common stock and bonds to the extent of \$60,000 for the purchase of the property of the Central Power Co., and to rehabilitate the property.

The Rugby Light and Power Company was given permission to file a cooking rate of 6.5 cents per K. W. H. with a 19 per cent discount for prompt payment.

The application of the Dunn Center Telephone Co., to increase its business telephone rentals 50 cents per month, and its residence rentals 25 cents per month was granted, all subscribers having the same.

The Commission to allow the increase—an emergency having existed.

The Heaton Telephone Co. of Heaton was granted permission to close its exchange at Heaton.

The Soo Line Railway was ordered to construct a new depot at Bordulac, North Dakota.

On September 29th the Commission approved Findings of Facts and Conclusions and issued its order in the matter of the investigation, upon its own motion, into the rates and charges of the Northern States Power Company, Mining Division.

The value of all the utility property adjacent to Minot was determined but only the rates in the City of Minot were considered, other rates not being involved.

The opinion discusses the law pertaining to valuation and the Commission holds that in the light of recent decisions of the Supreme Court of the United States, reproduction cost is an important element that must be given consideration.

The general lighting rates were reduced one cent per KWH, which gives consumers of Minot the same lighting rate as is now in effect in Grand Forks.

The street lighting rate of approximately 1.2 cents per KWH was left as at present, though this rate is barely equivalent to the production cost. The steam heating and telephone rates now in effect were continued, the Commission finding that the Company was not making an unreasonable return upon the investment in these utilities.

The Commission also found that the Company was not making an unreasonable return upon the investment in these utilities.

The Commission also found that the Company was not making an unreasonable return upon the investment in these utilities.

A Solemn Body in a Moment of Repose

When one enters the chamber of the U. S. Supreme Court in the Capitol, he will not find the members in such a "smiling" state of mind. The court convened for the season recently, and this photo shows members coming from the White House where they paid their respects to President Coolidge. Chief Justice Taft seems very happy about something.

REV. NEWCOMB IS ELECTED BAPTIST HEAD

Bismarck Man Chosen to Head State Assembly at Convention in Fargo

Fargo, Oct. 6.—Rev. George B. Newcomb of Bismarck was elected President of the North Dakota State Baptist convention at the annual business session here today.

The state convention includes four foreign conferences in this state and three district conferences.

Vice-presidents of the state convention to have charge of the conferences and associations were named as follows: North Dakota Association, Rev. N. M. Hupp, Jamestown; Red River Valley Association, comprising valley districts, R. B. Griffith, Grand Forks; Northwest Association, J. H. Burkhardt, Bismarck; Norwegian conference, Rev. Olaf Engen, Powers Lake; Swedish conference, Victor Johnson, Fargo; German conference, Rev. E. Breckel, Washburn; Russian conference (to be named later).

HIGH SCHOOL TEAM READY

Takes on Valley City Teachers College Saturday

Coach Houser will choose his team to go against the Valley City State Teachers college football eleven tomorrow afternoon, from a large squad. Scrimmage during the week has brought out hot contests for many places on the High School eleven, and many players may be given an opportunity in the game tomorrow. The game will be called promptly at 2 p. m., with Boise as referee.

The Valley City Teachers College team is composed largely of former Valley City high school players, and the local team looks for a tough battle.

STINNES SEES GEN. DEGOUTTE

German Industrialists to Make Proposals on Ruhr Occupation

Duesseldorf, Oct. 5.—Hugo Stinnes, the German industrial leader, arrived in Duesseldorf this morning. He and several others of the German industrial group have arranged for a conference with General Degoutte, French commander in the Ruhr, this afternoon.

It is generally believed the Ruhr will propose methods of restoring Ruhr valley activities and incidentally suggest some modifications of the Franco-Belgian military operations.

Berlin, Oct. 5.—The German Democratic party in the Reichstag today adopted a resolution declaring that the party could not support a government which had no parliamentary basis. As a majority of all the other parties have adopted the same view it is not believed that Chancellor Stresemann will not attempt to form a cabinet without support of the parliamentary parties.

MISSION TO LEAVE SUNDAY

President Coolidge's Embassies on Co-op Marketing Coming

Washington, Oct. 5.—The delegation of government officials, commissioned by President Coolidge to aid in the formation of cooperative marketing associations among wheat farmers will leave Washington Sunday for the northwest. Its first stop will be in Chicago where a series of

ORGY OF DEATH AND FLAME

Two girls were reported missing and seven other workers were severely injured when an explosion wrecked the site of the D. K. Rubber plant in Chicago. Photo shows demolished building with firemen inspecting the still smoldering ruins.

FOREWARNED IS FOREARMED

Some clever wit caused this sign to be erected on the Oklahoma line in Texas probably with a view to having his little joke.

CALLED "MYSTERY" HOUSE

Here is the summer home of the late Mrs. Charles Webb, over whose death an official investigation may take place. The home is at Fairfield, Conn. She had planned just before she became ill to live in it permanently.

conferences is planned for tomorrow.

Announcement of the date of the mission's departure, made today by Managing Director Meyer of the War Corporation, who with Director Mondell of the corporation and S. Yon Yoho, Bureau of Agricultural Economics, and a member of the delegation, gave no further details of the itinerary. Mr. Meyer explained that the Chicago conference will determine largely the program to be followed. It has been decided definitely that the officials will visit Minnesota, the Dakotas and Montana and probably other states in Northwest wheat-growing areas.

They desire to organize a route that will permit them to travel through the sections which appear most depressed, leaving others to be taken care of later.

Mr. Meyer was unable to say with whom conferences will be held in Chicago.

All of the farmers' representatives there likely will be called in before the delegation leaves and it was assumed also that conferences will be held with Chicago bankers and grain merchants. Similar conferences will be held at other points.

Cotton boll weevil first entered this country from Mexico in 1892.

PERIOD OF DEPRESSION IS WEATHERED

Sweden Expends \$30,000,000 to Provide Work for Jobless; Conditions Improved

Stockholm, Oct. 5.—The balancing of accounts at the end of the worst period of unemployment which Sweden has ever weathered shows the following debit and credit: a total public outlay of \$30,000,000 to provide work for the jobless, about 1,500 miles of new and improved roads, many new bridges, new telephone lines, forty-six new athletic fields, new aviation fields, new barracks, extensive forest improvements, and reforestation and opening up a large new tract of arable land.

This information is the result of researches made by two leading Stockholm newspapers on the occasion of reporting the lowest amount of unemployment during two and a half years, the figures now being only 20,000 as against 163,000 in February, 1922. Practically all of the large funds expended have been for construction of work, while steadily decreasing sums have been set aside for direct subvention. At present only about 150 persons are receiving unemployment doles.

ATTENDANCE AT OPERA IS ON DECLINE

Fine Opera House in S. A. Does Not Attract Best of American Artists

Buenos Aires, Oct. 5.—This city possesses one of the finest opera houses in the world, the Colon. Of recent years the attendance has decreased steadily until today the management is confronted with serious financial difficulties.

Various arguments have been advanced to account for this condition, the local business depression and a change in the public taste since the war—but the most popular answer is that the United States is making opera too expensive for the rest of the world.

America attracts the best artists with high salaries, and even in the summer time, it is alleged, famous singers make much money from concert tours and working for phonograph companies. Hence they have no inclination to come to South America.

Law To Regulate Use of Narcotics

Port-Au-Prince, Oct. 6.—The Haitian Council of State has passed a law to regulate and control the exportation, importation, possession, use or sale of narcotics, poisons and habit-forming drugs in Haiti.

The specific purpose of this legislation is to prevent the possible use of Haiti by German firms as a base for the distribution of narcotics. Previously there was no law of any description bearing on the narcotic problem and Germany, not being a signatory to the Opium Convention, was steadily increasing its imports of such substances. The passage of the act has made Haiti eligible as a signatory to this convention.

The new law is based on that which controls the use of narcotics in the United States, with certain modifications to fit local conditions.

Man Who Threshed Wilhelm Is Dead

London, Oct. 6.—The death occurred here recently of Alfred Russel Price, and passed almost unheeded, whereas it was worthy of special notice, for he succeeded in accomplishing what thousands of Americans have tried to do but could not, he gave the boy who later became German emperor, a good, sound thrashing.

It happened years ago when Wilhelm was the Crown Prince and was visiting Ilfracombe, an English seaside resort, with his tutor, Wilhelm, in a playfully destructive mood, began to throw stones at some bathing machines belonging to Mr. Price's father. He was told to stop, but took exception to this infringement of his regal rights. Young Price took off his coat and began to belabor the royal youth so successfully that he had administered a black eye and several cuts and bruises before the tutor succeeded in calling off hostilities.

NINE KILLED IN RIOTING

Warsaw, Oct. 5.—Nine persons were killed and 14 others wounded in recent rioting in Hidenburg, in the German districts of Upper Silesia, according to messages received here. (Berlin advices Thursday stated three persons were killed and several others were injured).

The clash occurred between police and demonstrators against the high cost of living.

The soy bean, originally a native of Manchuria, has now been acclimated in America.

Compressed air tools of all kinds especially for outdoor work, are gaining in popularity.

In ancient Carthage children used to be sacrificed to the Mother Goddess.

FRENCH WINES RETURN TO BERLIN CAFES

"Passive Resistance" May Die Natural Death; Signs Against French Disappear

Berlin, Oct. 5.—There is reason to believe that "passive resistance," unless constantly fed with new fuel to keep it alive, will, in the course of time, die a natural death.

Such seems to be the case in Berlin.

French wines, which were boycotted after the occupation of the Ruhr last January, now are offered in whispers to known patrons at some of the first class Berlin hotels, and are displayed in show windows of downtown wine stores. Even French cognac is served, provided it is asked for quietly, at many of the bars patronized by foreigners.

The sign "No French or Belgians served here," which appeared like magic over all Berlin almost as soon as the French troops set foot in Essen, have disappeared from most first class cafes and restaurants. They are, however, still displayed prominently at many of the shops in the suburbs and in the beer halls where the patrons are chiefly Germans.

OFFICIALS VISIT MINE AT WILTON

Governor R. A. Nestos, Secretary A. B. Cox, and members of the state board of administration, including R. E. Diehl, R. P. Goddard and E. G. Wanner, found out just how coal is mined in North Dakota yesterday. All were the guests of W. P. Macomber, president and general manager of the Washburn Lignite Coal company of Wilton, on a trip through the company's mine. While some of the officials had visited the mines before, it was the most thorough inspection of a mine they had made.

In 1922 there were 80,799 convictions for drunkenness in London, \$410 for these being against women.

"Yachting tours" in ocean liners are popular with Americans, trips to the arctic even being proposed.

CULT LEADER SAID TO BE IN AUSTRALIA

Sydney, Australia, Oct. 5.—Inspector Fowler, who is superintendent of the detective office here, said today he believed "King Benjamin" Parnell of the House of David colony in Michigan is at North Borneo, a small town near here. No instructions to take any action against Parnell have been received, Fowler said. The Sydney Truth recently gave a description of the House of David branch located on the Waterloo road at North Borneo with an interview with those in charge who refused to give any information as to Parnell's presence or whereabouts.

RICH IN DIAMONDS

Lisbon, Oct. 5.—The diamond fields of Angola, Portuguese West Africa, have been developed to such an extent that the Angola colony is now considered to be the fourth diamond producer of the world.

CUBAN WATER SURVEY IS COMPLETED

Navy Ends Ten Years Work of Mapping All the Cuban Waters

STARTED IN 1907

Many Interesting Mistakes in Old Maps Found and Corrected by Surveyors

Washington, Oct. 6.—The United States Navy has just completed another chapter of a ten year job of great interest and importance to mariners and hydrographers. It is the Cuba Survey, the mapping of the almost unknown waters around that island, undertaken in the interests of American shipping as well as of national defense.

Ever since its inception, it has been the hope of the Navy Hydrographic Office to gather and make charts and records of the waters of the entire world, with especial stress laid on charting nearby areas. The Caribbean and the Gulf of Mexico are so full of unknown islands and large and small coral reefs and cays, that in 1906 the Cuban government asked this government to undertake a close survey of nearby waters. The Hydrographic Office undertook the job.

From 1907 to 1917 the waters along the Cuban coast from Cape May, the easternmost extremity, to Cienfuegos, were sounded and mapped. The World War brought this activity to a close and it was not continued until early this year, when the personnel was reorganized and set to charting the section along the southwestern coast of the land from Cienfuegos to Cape San Antonio. In this area is the Gulf of Batabano, bordered by the Isle of Pines.

In making the survey small boats have run lines of soundings across local sectors, taking bearings from time to time upon triangulation signals erected on land and on shoals. A straight stretch of railway track along the Cuban coast was measured for a base line, and with these aids the naval officers have reported completion of the largest season's task of the entire survey. An area of 700 square miles was covered, 180 miles of shore line were plotted, and 6,500 miles of soundings were taken. Because of weather conditions, the survey season was limited to the period from the end of January to about August first.

Many important mistakes in previous charts were discovered. One shoal shown as nearly awash was found to be actually 30 feet below the surface. The mother ship of the survey, drawing 18 feet of water, discovered a channel by which to approach Batabano, through water theretofore accounted too shallow for large vessels to use.

One of the interesting sections plotted by the surveyors was the "White Sea," so called on account of the unusually white sand found on the bottom, the reflection from which almost completely overcomes the natural blue color of the tropic water. It is said that Columbus found this stretch, and was so taken by its oddity that he took a bottle of the water back to Queen Isabella.

Urge Increase Of Fish As Food

Paris, Oct. 6.—The French government, anxious to popularize the eating of fish, has been conducting an

COMING TO BISMARCK

Dr. Mellenthin
SPECIALIST

In Internal Medicine for the Past Twelve Years

DOES NOT OPERATE

Will be at

MCKENZIE HOTEL

Wednesday and Thursday,

OCTOBER 10 AND 11

Office Hours: 10 a. m. to 4 p. m.

TWO DAYS ONLY

No Charge for Consultation

Dr. Mellenthin is a regular graduate in medicine and surgery and is licensed by the state of North Dakota. He visits professionally the more important towns and cities and offers to all who call on this trip free consultation, except the expense of treatment when desired.

According to his method of treatment he does not operate for chronic appendicitis, gall stones, ulcers of stomach, tonsils or adenoids.

He has to his credit many wonderful results in diseases of the stomach, liver, bowels, blood, skin, nerves, heart, kidney, bladder, bed wetting, catarrh, weak lungs, rheumatism, sciatica, leg ulcers and rectal ailments.

If you have been ailing for any length of time and do not get any better, do not fail to call, as improper measures rather than disease are very often the cause of your long standing trouble.

Remember above date, that consultation on this trip will be free and that his treatment is different.

Married women must be accompanied by their husbands.

Address: 111 Bradburg Bldg., Bismarck, N. D.

extensive educational campaign to this end. Much money already has been spent, but the whole thing bids fair to end in failure because of the reluctance of the people to change their ways. They are not heavy fish eaters, and the argument is now advanced that if the government recognizes this and stops its efforts it will save the unexpended portion of the propaganda allowance, something like \$60,000,000 francs.

The campaign included "Fish Weeks" at Boulogne and elsewhere; exhibitions of deep sea fishing methods and the showing of films illustrating various aspects of the industry. Smart, new and efficient fishing boats were provided in place of the old picturesque craft, and extensive refrigeration plants were established to care for the catch.

The main trouble seems to be in the popular aversion to fish that has been frozen. The people are not used to them, and apparently they cannot be induced to change their point of view.

NEW DIAMOND RUSH

Johannesburg, S. A., Oct. 6.—A mushroom town has sprung up about the Holgat property in the Lichtenburg district, where a new diamond field has been discovered. No sensational finds have as yet been reported.

FRAZIER SAYS FARMER'S TURN IS AT HAND

Others Helped by Government, Why Not Farmer, North Dakota Solon Inquires

ISSUES STATEMENT

Washington, Oct. 6.—Senator Lynn J. Frazier of North Dakota declares a special session of congress is needed to consider farmer legislation, in a statement just issued.

"The time has come when the problems of agriculture must be officially reckoned with," said Senator Frazier. "The farmer has been sympathized with and given advice for years but repeatedly told that he must work out his own problems. I have noticed that many times when other industries have been confronted

with problems that endangered their welfare and existence they have worked out a solution through congress. Why not the farmer? "Sympathy is not what the farmers want, neither is it charity. They are facing a most serious crisis that not only endangers their very existence but also endangers the welfare of the nation. They want emergency legislation that will bring them relief. Relief measures for farmers have been before congress for the last two years but nothing has been done. Many other emergency situations not half so serious have been taken care of with apparent ease and dispatch. Back in 1914 the bankers were granted emergency relief in the authorization of millions of emergency currency. The railroads were later granted emergency relief to such an extent that there is a growing belief that such "relief" almost unfettered to a generous bonus. In fact the railroads have been so well taken care of at the expense of the public that the people are beginning to realize that they are an expensive luxury. The business interests received their emergency relief in the Fordney-McCumber tariff bill.

"Repeatedly statements have been made that there is no definite program for the farmers and two years ago did not seem to have sufficed for the preparation of one. It is always

considered a most difficult task to frame a tariff measure but there was no such delay in putting through such a tariff bill. Two years ago Congressman Sinclair introduced a bill for the stabilization of farm prices. Later on Senator Ladd offered a measure which tended toward the same result. Last winter the Norris-Sinclair bill, if enacted, would undoubtedly have brought relief. It was favorably recommended by the committees of both the senate and house but was apparently sidetracked for something of much less importance.

"As usual we are hearing the same line of suggestions about new credit agencies, and congress will undoubtedly be besieged by the same kind of politicians and bankers offering the same kind of credit schemes. The farmers never received any real relief from this source and they need

not expect any now. These so-called rural credit schemes generally benefit the man who farms the farmer instead of the man who farms the land who is the one who needs relief.

"If a special session of congress were called for the definite purpose of enacting remedial legislation for the benefit of farmers who are being forced out of business and into bankruptcy because of the unfair prices and unfair marketing conditions, it would undoubtedly result in the wheat being held off the market, which in itself would be beneficial. There will undoubtedly be several relief measures introduced which will ultimately have to be fought out anyway when congress meets in regular session. The sooner it meets and gets at the task the sooner the job will be done. The farmers are discouraged and dis-

heartened and their only hope for immediate relief is through emergency legislation by congress. The

people of the agricultural states are facing a crisis right now. They demand a square deal."

Here's Good Oil For You

"Yes sir, I'm selling Havoline because I have found I can give more people satisfaction than with any other oil I have ever sold."

"When you realize what an important thing good

oil is to the motor, what's the use of taking a chance in buying an unknown oil?"

"Havoline has been sold for nearly twenty years. I know it is a good oil. My customers know Havoline is a good oil. So in selling Havoline I am selling good lubrication and satisfying customers."

"If you want good oil, drive around. I'm at your service."

There's a Havoline dealer near you. You can tell him quickly by the blue Havoline sign with the red ball. He'll sell you the proper grade for your car.

EXCEPTIONAL RIDING COMFORT

The new Dodge Brothers Touring Car is exceptionally comfortable to ride in; it is good looking; and it incorporates many important refinements of detail.

The body is longer and lower, eliminating side sway, affording more leg room, and enhancing the beauty of the lines.

Deeper seats, long underslung rear springs and longer front springs, give ample assurance that cross country touring can be enjoyed without weariness or fatigue.

Yet with these improvements, and many others, it is still fundamentally the same car—built on the same chassis and powered by the same sturdy engine.

The price is \$880 f. o. b. Detroit—\$1040 delivered

WHAT GERMANY'S SURRENDER IN THE RUHR MEANS

Is it a real surrender or merely a German "strategic retreat" to another Hindenburg Line of economic resistance? That is the doubt that colors much of the editorial comment on "the most important news from Europe since the signing of the Armistice." On all sides Germany's discontinuance of the policy of passive resistance is held as a triumph for the French policy of armed occupation of the Ruhr district.

The leading article in THE LITERARY DIGEST this week presents public opinion from all angles as it is shown in England, America, France, and Germany. In Germany, the people are reported in an angry mood. France's attitude seems to be "wait and see." In England, there is a feeling of relief and a prediction that any distrust that may have grown up between Great Britain and France will soon be dissipated. If you would get an all-sided understanding of this outstanding development in European affairs, by all means read THE LITERARY DIGEST this week. Other news-articles of great interest are:

Will Canada Assist Us to Enforce Prohibition?

What the Canadian press says regarding our Government's request for Canada to cooperate in prohibiting shipments of liquor.

How New York Newspapers Met a Strike

There was almost a newspaper famine when 2,500 pressmen suddenly struck. How the situation was handled by the newspapers and the strike won, make a very interesting story.

What Pictures Would You Like to See On the Screen?

Most motion-picture exhibitors are first of all business men. They are animated by the same desire that men in other business are. They are selling a product to the public—entertainment—and the more popular their entertainment is the more successful their business. They wish first of all to give the public what it wants, and if they knew definitely just what it did want their care would be over. Therefore, it is up to the public to let the manager know what it wants. If you wish to see a certain picture, make your wish known to the manager, write him a card.

or better yet, ask at the box-office when such and such a picture will be shown. You are sure to get action.

While there are thousands of theaters now showing "The Literary Digest Fun from the Press" it may not have been shown in your locality. Tell the local manager about it and we are certain that after you have seen this little reel you will congratulate yourself for having made it possible for yourself and friends to have had ten minutes of clean fun. Produced by The Literary Digest. Distributed by W. W. Hodkinson Corporation.

WORLD LAW TO DEAL WITH NON-SUPPORT

Would Have International
Measures to Prevent Fathers
from Fleeing from
Country

SUGGESTED BY SWEDEN

Not Expected to Pass New
Laws But to Use Laws of
Various Nations

Stockholm, Oct. 6.—Effective international measures for the protection of children whose fathers, of a different nationality from that of the mother, seek to escape their responsibilities by fleeing the country may soon be arrived at, if the plans of K. H. von Koch, Swedish delegate to the Geneva congress of the International Association for the Protection of Children, are carried through.

There are two general classes of cases, which involve special hardships for the children, says Mr. von Koch. One is where parents of different nationalities become divorced, and the father leaves the country without providing for his offspring. The other is the case of the illegitimate child whose father leaves the country of the mother in order to avoid the responsibility of support, which may be legally demanded in Sweden.

The welfare of the child should be the first consideration, whatever its nationality, Mr. von Koch declares. He suggests that the first step ought to be the establishment of a central bureau of information in every country, which would take a sympathetic interest in the welfare of such children. Such a bureau could advise the individuals concerned as well as the municipal or state authorities and institutions regarding the best means of providing for the child's support. For the present it is not planned to enact new uniform laws, but to utilize whatever legal remedies exist in the respective nations. In a majority of the cases, the author of the plan believes, voluntary settlements could be brought about by the central bureau without recourse to law. Mr. von Koch recommends that the various national sections of the International Association for the Protection of Children assume this new work.

RAILROAD FINDS IT IS OWNED BY THOUSANDS

More than 2000 of the 71,000 individuals and corporations owning Northern Pacific Railway securities are savins banks, insurance companies, trustees, guardians, colleges and charitable institutions, according to figures made public for the first time by J. C. Woodworth, vice-president of the road.

Eighty-five percent of the stockholders hold less than 100 shares, and almost one third of the entire number of stockholders, own from 1 to 10 shares of stock, according to these figures; 12,550 of the owners are women.

Mr. Woodworth says: "Many people believe that the railroads of this country are owned by a few wealthy individuals. This is not true. On the contrary, there is no kind of business which represents so many different individuals and corporations as owners of Northern Pacific securities. Out of the 71,000 owners, these securities are owned by 2,000 individuals and corporations."

held by more than 33,000 owners, an average of only \$9.74 each. There has been no change since 1919 in the amount of our capital stock outstanding, viz., \$248,000,000, which is held by about 33,000 individuals; average per stockholder 65 shares, worth at present market less than \$4,000.

Showing the number of small stockholders, the following figures are interesting:

20,612 individuals hold from 1 to 19 shares.

11,779 individuals hold from 20 to 59 shares.

32,231 individuals or 85 percent hold less than 100 shares each.

5,797 individuals hold 100 or more shares.

STATE FAITH IS NECESSARY FOR BUILDING

(Continued from Page 1)

lation of 50,000,000, while North Dakota with 70,000 square miles of land now has but 700,000 people.

Mr. W. Johnson added a personal note. He said that an auctioneer at a masthead, now crying many sales, said he never saw a time when there were so many farmers ready to step up and pay good prices for farm goods. It is the wheat farmer who is selling out, but it is the diversified farmer who is buying and paying good prices, he added.

AT THE MOVIES

CAPITOL.

The question has been asked frequently by readers of "If Winter Comes?" How is a story which is mostly in narrative form to be turned into dramatic action for the screen? Harry Millarde, who directed the William Fox screen version of Hutchinson's famous novel which will be shown at the Capitol Theater next Monday explains the matter by pointing out that its foundation is essentially dramatic and that the development of the theme, as handled by the author, is according to all the rules of construction laid down by the masters of the art.

"Even a cursory reading of 'If Winter Comes,'" says Mrs. Millarde, "will reveal that A. S. M. Hutchinson has set no traps in the way of wise issues to lead the interest away from the main themes. He starts his proposition as clearly as does a professor of mathematics in an example in arithmetic, and works it out with the same care and precision.

"Every incident told directly or described by Haggood, the garrulous friend of Mary Sabre, has a bearing on the scene in the court room where Mark learns that he is suspected of the death of Edie and her child. The grief of Edie's father, the evidence of Twynning and the insinuating questions of the hump-backed lawyer, who takes malicious delight in trying to enmesh an innocent man, followed by the entrance of Lady Tybar and her indignant protest against the torture in which they are subjecting the suffering Mark, are the very stuff of which drama is made. The mob scene and the final righting of the wrong against Sabre bring to a close a story that needed only to be given the proper screen construction to bring out its full dramatic value."

SOCIAL AND PERSONAL

CELEBRATES 7TH BIRTHDAY.
To celebrate her seventh birthday anniversary, Emily Belk, daughter of Mr. and Mrs. J. B. Belk, entertained 10 little girls and boys at a matinee party this afternoon at the Eltinge theater. Mrs. L. F. Bechtold and Miss Clarice Belk, sister of the little hostess, chaperoned the youngsters. Later they returned to the Belk residence on Fourth street, where a birthday luncheon was served. A jaunty color scheme of pink and white was chosen to decorate the table.

TATLEYS HONORED.
Mrs. V. J. LaRose entertained a group of friends informally Friday afternoon at her home on Sixth street in honor of Mrs. Henry Tatley and daughter, Miss Clara, of Hollywood, Cal., who are leaving tomorrow for their home.

"If Winter Comes" at the Capitol Theatre Monday.
Twelve massive reels starting at 7:15 sharp. Don't miss it.

AEROPLANE RIDES
We will carry passengers all day Sunday, starting from Highway Commission Shop, Potter and Westfall. Experienced Pilots.

Who pays you or the Insurance company?

Are you prepared to pay for the garage or any other outbuilding that goes up in flames? A dependable insurance company is prepared to pay at all times. It is good business to be insured against fire loss, because if fire comes, you are able to start rebuilding without delay. WORLD LAW TO DEAL WITH NON-SUPPORT

Would Have International
Measures to Prevent Fath-
ers from Fleeing from
Country

SUGGESTED BY SWEDEN

Not Expected to Pass New
Laws But to Use Laws of
Various Nations

Stockholm, Oct. 6.—Effective in-
ternational measures for the pro-
tection of children whose fathers
of a different nationality from that
of the mother, seek to escape their
responsibilities by fleeing the country
may soon be arrived at, if the plans
of K. H. von Koch, Swedish delegate
to the Geneva congress of the inter-
national association for the protec-
tion of children, are carried through.
There are two general classes of
cases which involve special hand-
lings for the children, says Mr. von
Koch. One is where parents of dif-
ferent nationalities become divorced,
and the father leaves the country
without providing for his offspring;
the other is the case of the illegiti-
mate child whose father leaves the
country of the mother in order to
avoid the responsibility of support,
which may be legally demanded in
Sweden.

The welfare of the child should
be the first consideration, whatever
its nationality. Mr. von Koch de-
clares. He suggests that the first
step ought to be the establishment
of a central bureau of information
in every country which would take
a sympathetic interest in the wel-
fare of waifs or other children with-
out economic support. Such a bu-
reau could advise the individuals con-
cerned as well as the municipal or
state authorities and institutions re-
garding the best means of providing
for the child's support. For the pre-
sent it is not planned to enact new
uniform laws, but to utilize what-
ever legal remedies exist in the re-
spective nations. In a majority of
the cases, the author of the plan
believes, voluntary settlements could
be brought about by the central
bureau without recourse to law. Mr.
von Koch recommends that the var-
ious national sections of the inter-
national association for the protec-
tion of children assume this new
work.

RAILROAD FINDS IT IS OWNED BY THOUSANDS

More than 2000 of the 71,000 indi-
viduals and corporations owning
Northern Pacific Railway securities
are savings banks, insurance com-
panies, trustees, guardians, colleges
and charitable institutions, accord-
ing to figures made public for the
first time by J. C. Woodworth, vice-
president of the road.

Eighty-five percent of the stock-
holders hold less than 100 shares,
and almost one third of the entire
number of stockholders own from 1
to 10 shares of stock, according to
these figures; 13,559 of the owners
are women.

Mr. Woodworth says: "Many peo-
ple believe that the railroads of this
country are owned by a few wealthy
individuals. This is not true. On
the contrary there is no kind of
business which represents so many
owners; for example, 71,000 different
individuals and corporations are
owners of Northern Pacific securi-
ties. Outstanding bonds, including
those issued for C. B. & Q. stock,
amount to \$321,466,560, which are

held by more than 33,000 owners, an
average of only \$9,741 each. There
has been no change since 1919 in the
amount of our capital stock out-
standing, viz., \$248,000,000, which is
held by about 38,000 individuals;
average per stockholder 65 shares,
worth at present market less than
\$4,000."

STATE FAITH IS NECESSARY FOR BUILDING

(Continued from Page 1)
Jation of 50,000,000, while North Da-
kota with 70,000 square miles of land
now has but 700,000 people.

Mr. Washburn added a personal
note. He said that an auctioneer at
Jamestown, now crying many sales,
said he never saw a time when there
were so many farmers ready to step
up and pay a good, cash price for
farm goods. It is the wheat farmer
that is selling out, but it is the di-
versified farmer who is buying and
paying good prices, he added.

AT THE MOVIES

CAPITOL.

The question has been asked fre-
quently by readers of "If Winter
Comes." How is a story which is
mostly in narrative form to be turned
into dramatic action for the
screen? Harry Millard, who direct-
ed the William Fox screen version of
Hutchinson's famous novel which
will be shown at the Capitol theatre
next Monday explains the matter by
pointing out that its foundation is
essentially dramatic and that the
development of the theme, as hand-
led by the author, is according to
all the rules of construction laid
down by the masters of the art.

"Even a cursory reading of 'If
Winter Comes,' says Mrs. Millard,
"will reveal that A. S. M. Hutchin-
son has set no traps in the way of
side issues to lead the interest away
from the main themes. He starts his
proposition as clearly as does a pro-
fessor of mathematics in an exam-
ple in arithmetic, and works it out
with the same care and precision.

"Every incident told directly or
described by Hagood, the garrulous
friend of Mary Sabre, has a bearing
on the scene in the court room where
Mark learns that he is suspected of
the death of Edie and her child. The
grief of Edie's father, the evidence
of Twynning and the insinuating ques-
tions of the hump-backed lawyer,
who takes malicious delight in trying
to enmesh an innocent man, followed
by the entrance of Lady Tybar and
her indignant protest against the
torture in which they are subjecting
the suffering Mark, are the very stuff
of which drama is made. The mo-
ment and the final righting of the
wrong against Sabre bring to a close
a story that needed only to be given
the proper screen construction to
bring out its full dramatic value."

SOCIAL AND PERSONAL

CELEBRATES 7TH BIRTHDAY.
To celebrate her seventh birthday
anniversary, Emily Belk, daughter of
Mr. and Mrs. J. B. Belk, entertained
10 little girls and boys at a matinee
party this afternoon at the Eltinge
theater. Mrs. L. F. Bechtold and
Miss Clarice Belk, sister of the little
hostess, chaperoned the youngsters.
Later they returned to the Belk resi-
dence on Fourth street, where a
birthday luncheon was served. A
lively color scheme of pink and
white was chosen to decorate the ta-
ble.

TATLEYS HONORED.
Mrs. V. J. LaRose entertained a
group of friends informally Friday
afternoon at her home on Sixth
street in honor of Mrs. Henry Tatley
and daughter, Miss Clara, of Holly-
wood, Cal., who are leaving tomor-
row for their home.

CUBAN WATER SURVEY IS COMPLETED

Navy Ends Ten Years Work of Mapping All the Cuban Waters

STARTED IN 1907

Many Interesting Mistakes in Old Maps Found and Corrected by Surveyors

Washington, Oct. 6.—The United States Navy has just completed another chapter of its ten year job of great interest and importance to mariners and hydrographers. It is the Cuba Survey, the mapping of the almost unknown waters around that island, undertaken in the interests of American shipping as well as of national defense.

Ever since its inception, it has been the hope of the Hydrographic Office to gather and make charts and records of the waters of the entire world, with especial stress laid on charting nearby areas. The Caribbean and the Gulf of Mexico are so full of unknown islands and large and small coral reefs and cays, that in 1906 the Cuban government asked this government to undertake a close survey of nearby waters. The Hydrographic Office undertook the job.

From 1907 to 1917 the waters along the Cuban coast from Cape May, the easternmost extremity, to Cienfuegos, were sounded and mapped. The World War brought this activity to a close and it was not continued until early this year, when the personnel was reorganized and set to charting the section along the southwestern coast of the land from Cienfuegos to Cape San Antonio. In this area is the Gulf of Batabano, bordered by the Isle of Pines.

In making the survey small boats have run lines of soundings across local waters, taking bearings from time to time upon triangulation signals erected on land and on shoals. A straight stretch of railway track along the Cuban coast was measured for a base line, and with these aids the naval officers have reported completion of the largest season's task of the entire survey. An area of 750 square miles was covered, 180 miles of shore line were plotted, and 6,500 miles of soundings were taken. Because of weather conditions, the survey season was limited to the period from the end of January to about August first.

Many important mistakes in previous charts were discovered. One shoal shown as nearly awash was found to be actually 30 feet below the surface. The mother ship of the survey, drawing 18 feet of water, discovered a channel by which to approach Batabano, through water theretofore accounted too shallow for large vessels to use.

One of the interesting sections plotted by the surveyors was the "White Sea," so called on account of the unusually white sand found on the bottom, the reflection from which almost completely overcomes the natural blue color of the tropic water. It is said that Columbus found this stretch, and was so taken by its oddity that he took a bottle of the water back to Queen Isabella.

Urge Increase Of Fish As Food

Paris, Oct. 6.—The French government, anxious to popularize the eating of fish, has been conducting an

COMING TO BISMARCK

Dr. Mellenthin
SPECIALIST

In Internal Medicine for the Past Twelve Years

DOES NOT OPERATE

Will be at

MCKENZIE HOTEL

Wednesday and Thursday,
OCTOBER 10 AND 11
Office Hours: 10 a. m. to 4 p. m.

TWO DAYS ONLY

No Charge for Consultation

Dr. Mellenthin is a regular graduate in medicine and surgery and is licensed by the state of North Dakota. He visits professionally the more important towns and cities and offers to all who call on this free consultation, except the expense of treatment when desired.

According to his method of treatment, he is successful in cases of appendicitis, gall stones, stomach, tonsils or adenoids.

He has in his credit many wonderful results in diseases of the stomach, bowels, blood, skin, nervous system, kidney, bladder, bed wetting, catarrh, weak lungs, rheumatism, sciatica, leg ulcers and rectal ailments.

If you have been ailing for any length of time and do not get any better, do not fail to call, as improper measures rather than disease are very often the cause of your long standing trouble.

Remember above date, that consultation on this trip will be free and that his treatment is different. Married women must be accompanied by their husbands.

Address: 211 Bradburg Bldg., Los Angeles, Cal.

FRAZIER SAYS FARMER'S TURN IS AT HAND

Others Helped by Government, Why Not Farmer, North Dakota Solon Inquires

ISSUES STATEMENT

Washington, Oct. 6.—Senator Lynn J. Frazier of North Dakota declares a special session of congress is needed to consider farmer legislation, in a statement just issued.

"The time has come when the problems of agriculture must be officially reckoned with," said Senator Frazier. "The farmer has been sympathized with and given advice for years but repeatedly told that he must work out his own problems. I have noticed that many times when other industries have been confronted

with problems that endangered their welfare and existence they have worked out a solution through congress. Why not the farmer? "Sympathy is not what the farmers want, neither is it charity. They are asking a most serious crisis that not only endangers their very existence but also endangers the welfare of the nation. They want emergency legislation that will bring them relief. Relief measures for farmers have been before congress for the last two years but nothing has been done. Many other emergency situations not half so serious have been taken care of with apparent ease and dispatch. Back in 1914 the bankers were granted emergency relief in the authorization of millions of emergency currency. The railroads were later granted emergency relief to such an extent that there is a growing belief that such 'relief' almost amounted to a generous bonus. In fact the railroads have been so well taken care of at the expense of the public that the people are beginning to realize that they are an expensive luxury. The business interests received their emergency relief in the Fordney-McCumber tariff bill.

"Repeatedly statements have been made that there is no definite program for the farmers and two years does not seem to have sufficed for the preparation of one. It is always

considered a most difficult task to frame a tariff measure but there was no such delay in putting through such a tariff bill. Two years ago Congressman Sinclair introduced a bill for the stabilization of farm prices. Later on Senator Ladd offered a measure which tended toward the same result. Last winter the Norris-Sinclair bill, if enacted, would undoubtedly have brought relief. It was favorably recommended by the committees of both the senate and house but was apparently sidetracked for something of much less importance.

"As usual we are hearing the same line of suggestions about new credit agencies and congress will undoubtedly be besieged by the same kind of politicians and bankers offering the same kind of credit schemes. The farmers never received any real relief from this source and they need

not expect any now. These so-called rural credit schemes generally benefit the man who farms the farmer instead of the man who farms the land who is the one who needs relief.

"If a special session of congress were called for the definite purpose of enacting remedial legislation for the benefit of farmers who are being forced out of business and into bankruptcy because of the unfair prices and unfair marketing conditions, it would undoubtedly result in the wheat being held off the market, which in itself would be beneficial. There will undoubtedly be several relief measures introduced which will ultimately have to be fought out anyway when congress meets in regular session. The sooner it meets and gets at the task the sooner the job will be done. The farmers are discouraged and dis-

heartened and their only hope for immediate relief is through emergency legislation by congress. The people of the agricultural states are facing a crisis right now. They demand a square deal."

Here's Good Oil For You

"Yes sir, I'm selling Havoline because I have found I can give more people satisfaction than with any other oil I have ever sold."

"When you realize what an important thing good oil is to the motor, what's the use of taking a chance in buying an unknown oil?"

"Havoline has been sold for nearly twenty years. I know it is a good oil. My customers know Havoline is a good oil. So in selling Havoline I am selling good lubrication and satisfying customers."

"If you want good oil, drive around. I'm at your service."

There's a Havoline dealer near you. You can tell him quickly by the blue Havoline sign with the red ball. He'll sell you the proper grade for your car.

EXCEPTIONAL RIDING COMFORT

The new Dodge Brothers Touring Car is exceptionally comfortable to ride in; it is good looking; and it incorporates many important refinements of detail.

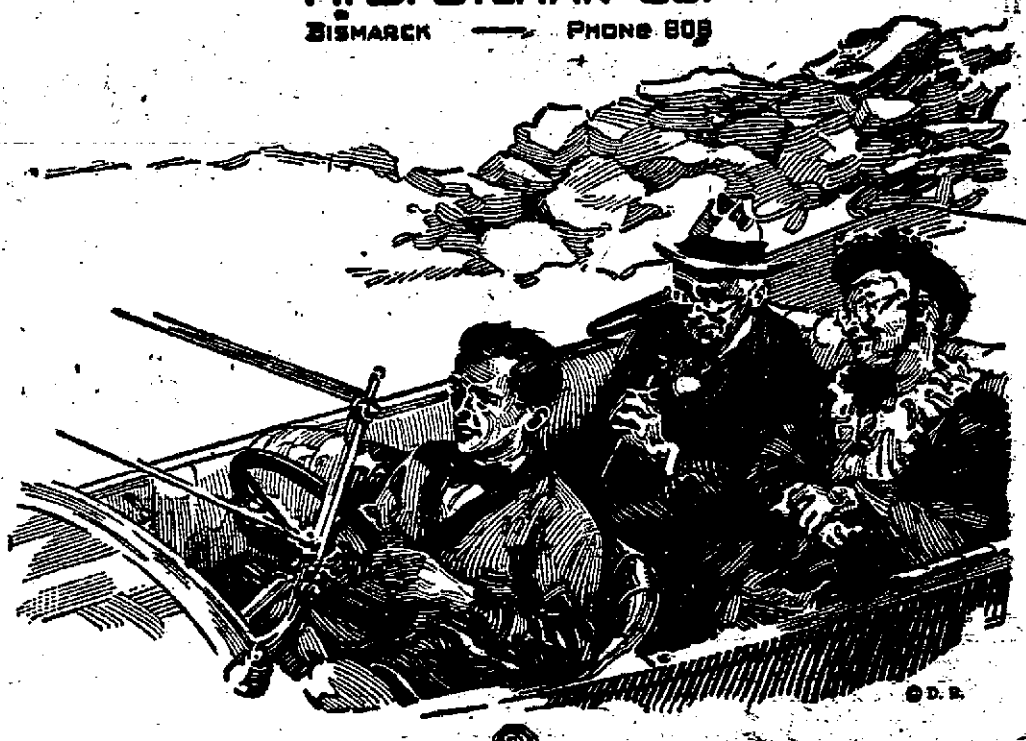

The body is longer and lower, eliminating side sway, affording more leg room, and enhancing the beauty of the lines.

Deeper seats, long underslung rear springs and longer front springs, give ample assurance that cross country touring can be enjoyed without weariness or fatigue.

Yet with these improvements, and many others, it is still fundamentally the same car—built on the same chassis and powered by the same sturdy engine.

The price is \$880 f. o. b. Detroit—\$1040 delivered

WHAT GERMANY'S SURRENDER IN THE RUHR MEANS

Is it a real surrender or merely a German "strategic retreat" to another Hindenburg Line of economic resistance? That is the doubt that colors much of the editorial comment on the most important news from Europe since the signing of the Armistice. On all sides Germany's discontinuance of the policy of passive resistance is held as a triumph for the French policy of armed occupation of the Ruhr district.

The leading article in THE LITERARY DIGEST this week presents public opinion from all angles as it is shown in England, America, France, and Germany. In Germany, the people are reported in an angry mood. France's attitude seems to be "wait and see." In England, there is a feeling of relief and a prediction that any distrust that may have grown up between Great Britain and France will soon be dissipated. If you would get an all-sided understanding of this outstanding development in European affairs, by all means read THE LITERARY DIGEST this week. Other news-articles of great interest are:

What Pictures Would You Like to See On the Screen?

Most motion-picture exhibitors are first of all business men. They are animated by the same desire that men in other business are. They are selling a product to the public—entertainment—and the more popular their entertainment is the more successful their business. They wish first of all to give the public what it wants, and if they knew definitely just what it did want their care would be over. Therefore, it is up to the public to let the manager know what it wants. If you wish to see a certain picture, make your wish known to the manager, write him a card,

or better yet, ask at the box-office when such and such a picture will be shown. You are sure to get action.

While there are thousands of theaters now showing "The Literary Digest" Fun from the Press; it may not have been shown in your locality. Tell the local manager about it and we are certain that after you have seen this little reel you will congratulate yourself for having made it possible for yourself and friends to have had ten minutes of clean fun. THE STATE'S OLDEST NEWSPAPER
(Established 1873)

CAN IT BE DONE?
Proponents of state industrialism often maintain that the government can engage in business with the same degree of success as a private institution, with officials and employees giving the same measure of service, and without the weakening influence of political considerations. They maintain this in spite of scores of examples to the contrary.

Consider the state mill at Grand Forks.
I. V. A. and Nonpartisans alike have united at times in pledging support to the institution, run on an absolutely business basis and without political considerations.

The manager of the mill had an opportunity to purchase some Canadian wheat at a price that would enable him to make a profit, his location being favorable for a cheap purchase of the grain. Of course, it is repugnant to North Dakotans that grain should be bought in Canada. Yet the manager of the mill declared it was good business and he was there to make the business pay. He must cease the practice.

A state law requires the state board of administration to purchase supplies on competitive bid. It has done so. It purchased flour for the state insane hospital at Jamestown and let the contract to the lowest bidder, which was a private flour milling concern which bid under the state mill.

This practice is assailed by political opponents of the state administration. It was stopped even before an attack was made, board of administration members declare. It has always been considered good business for the state to buy from the low bidder, and it is the law. The private mill at Jamestown, which pays taxes, cannot sell flour to the state.

The two examples are noteworthy, in that they point out the difficulty of conducting the state-owned mill on a purely business basis, and without regard to politics.

WALL STREET UNAFRAID
Senator Magnus Johnson descended upon New York a few days ago. One can imagine the curiosity, perhaps the trembling fear, with which Wall street awaited the visit of the political thunderbolt from Minnesota.

But if Wall street was surprised when Magnus was elected, it must have been more surprised when he made his first speech in the great city. For organs that are called "Wall street organs" find that Magnus isn't half as red as he was painted, that he has many good qualities—the organs even go so far as to extend a hand of welcome to Magnus.

The lily-handed parlor socialists of New York went out to welcome the conqueror with open arms. And, behold, Magnus' first pronouncement was that he was not a radical. He declared he was for constitutional government. He asserted his opposition to governmental ownership of railroads.

Some of the views of Senator Johnson appear to be conflicting. One began to suspect that Magnus was somewhat of a politician when he swamped Governor Preus in Minnesota. One is well nigh convinced when Magnus can descend on Wall street and receive a friendly nod as he leaves.

IN DESPAIR
The attempt to obtain cheap energy, by unlocking the vast power contained in the atom, is practically futile, according to a leading English scientist. He virtually "throws the sponge" because able minds have been trying for about 20 years to release the energy in the atom, and seem no nearer to success than when they started.

Shucks! That's no reason for becoming discouraged. Twenty years is nothing in the long history of humanity. Why, the crude principle of the steam engine was known 2000 years or so ago. Yet it was not until about 150 years ago that the steam engine was made a practical or usable device.

All of us can understand the discouraged English scientist. It is human nature to become impatient and discouraged during the battle for success—which nearly always is a slow battle.

For all we know, man may be on the very verge of discovering how to harness the atom's terrific power. Such great discoveries nearly always are the result of accident—blunder. And accident is like lightning, it comes unexpectedly, cannot be foreseen.

It should be remembered that the seemingly impossible discoveries are made at unexpected moments. While the world was joking about airplanes and predicting that they were impossible, the Wright brothers suddenly made the first trip. It was so with the auto.

Nature demands her price, payment in full, for everything she gives us. A crop isn't matured to harvest overnight. It requires time, patience, effort. And, on the average, the farmer gets no more from his work than he puts into it.

The ability to harness the atom's power would be worth thousands of years of research. We can't expect nature to give us her secret until we have labored enough to deserve it. Trouble is, humanity expects too much—wants its pay before the job is finished.

ESCAPE
A Memphis construction supervisor, W. O. Denkmann, fell from the tenth floor of a building, struck the pavement on his head—and lived 39 hours.

We recommend this remarkable case to hypochondriacs and neurasthenics who live in constant fear that extraordinary care must be exercised to keep them alive.

Few of us are wanted on the other side of the grave as much as we fondly imagine.

HOGS A CLEAN ANIMAL
A big hog farm in an eastern state scatters such indelicate odors that nearby residents go to law about it.

Their complaint is really against the owners, not the hogs. It has been scientifically proved that the hog is naturally a clean animal, much cleaner than a chicken. The hog merely degenerates to the level of its environment—same as people.

EDITORIAL REVIEW

Comments reproduced in this column may or may not express the opinion of The Tribune. They are presented here in order that our readers may have both sides of important issues which are being discussed in the press of the day.

MAGNUS AND THE SMALL FRY

The visit of Senator Magnus Johnson to New York was not without its comic aspects. Our local leaders of political shock troops, the "romantic rebels," as they have been called, gathered about the rough Swede from the Minnesota farm to feast and to flatter him. Here was perhaps the earth-shaker that they so much need in their make-believe revolutionary business. He had torn things open in Minnesota; might he not be the man they so long have sought, and mourned because they found him not, who would bring about that general convulsion which they will not be happy until they get? So with great curiosity and unconcealed interest they buzzed and fluttered about the Western disturber of the conservative peace for a whole afternoon and evening, taking notice of him and plying him with questions to discover whether, after many disappointments, they had not at last found a man, after their own heart to lead them to the destruction of what they are pleased to call "our rotten social order."

If they sought the presence of Magnus despondent, they left it dejected. The fellow was so long to learn, displays such a depressing amount of horse sense! He denied that he was a radical! All that he is bent upon at present is to obtain a measure of what he conceives to be justice for the farmers. For the soft-headed intellectuals who flocked to him in this city, and who told him, neither do they spin, he must have had an unexpressed feeling of something like contempt. At all events, he was not here to give them aid and comfort. If they wanted to get up a snug little third party of their own, that was their affair; he would have nothing to do with it at present. His first and main endeavor would be to make use of one or the other of the existing parties. If that failed, it would be time enough to talk. Meanwhile he made it plain that he would neither part nor lot with the little groups of our best thinkers who lunch on the social revolution and dine off the dictatorship of the proletariat.

It is a part of the unconscious humor of our romantic rebels that they are sublimely unconscious of the figure they cut in the eyes of the observant. It is probable, therefore, that they did not give a thought to the spectacle they were making of themselves in groveling before Magnus Johnson. It was, in fact, the worst possible example of that which they so indignantly attack—the worship of the god of things as they are. Senator Johnson had won a great success in Minnesota. That was enough for them. They would hitch their wagon to his star if they could. To be sure, they had long been preaching the doctrine of the need of education and inspiring leadership, of an enlightened vision of the future, of passionate devotion to the welfare of the poorest and most uneducated masses, but what did all that matter if they could somehow contrive to attach their movement to this rude Orson of the prairies?

Their whole display of themselves was so ludicrous that it did not seem as if any touch were needed to make it complete. But that touch was partly by Magnus himself in his partly amused and partly scornful turning away from the little credulous band that fancied him to be one who would start out to lead them with a torch in one hand and a bomb in the other.—New York Times.

MANDAN NEWS

Struck By Train Injured Severely

McKinley Cockrell, Northern Pacific freight conductor between Mandan and Jamestown, is suffering from severe injuries sustained Thursday evening in the yards east of the city. He was checking up his train when he was struck by an engine, and thrown against his own train. He suffered a deep gash over one eye, an injured back and severe bruises.

Dr. Bernard S. Nickerson has gone to Minneapolis on professional business.

Boyhood Heroes

The Tangle

LETTER FROM LESLIE PRESCOTT TO LESLIE PRESCOTT, CARE OF THE SECRET DRAWER (CONTINUED.)

After Ruth left me, I rather began to wonder why she had told me so freely her life's tragedy. You and I, little Marquise, know that women seldom confess to other women that their husbands are what men call dishonorable. There is another definition for them when men mistreat women.

Ruth made it very plain by her illustrations with the Seventh and Eight Commandments. A man treats the breaking of the Seventh Commandment as a joke. To the woman it always spells tragedy.

A woman hates to confess that her husband is something disreputable in the eyes of other men. Because I was a woman I knew how hard it would be for Ruth to say this about her husband and I knew that she had some peculiar motive in doing so.

All at once what Jack had told me after returning from the visit to New York with Harry Ellington came to my mind. "I am sitting on the rim of the world," he had said and how he had alternately been in the highest and lowest of spirits ever since.

EVERETT TRUE BY CONDO

MRS. TRUE!! WHERE IS MY.....

I DON'T KNOW WHAT YOU'RE LOOKING FOR, BUT IT MAY BE AMONGST THESE THINGS THAT ARE SCATTERED AROUND THIS HOUSE!!

"No, he won't, Leslie, while I am turning in as much business as I am now."

"It doesn't seem to be doing us any good, Jack. I wonder if it is more than a month and a half since you have given me one cent of money."

"If you will wait a week or two you will have all the money you want. Besides, I knew you had money."

"But Jack, I spent the last of that thousand dollars over a week ago and today both the grocery bill and the rent are due."

"I really can't understand where that thousand dollars went to, Leslie."

"Well, the grocer and the landlord will have to wait. I will not have a cent until I am paid next Thursday."

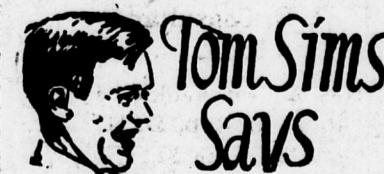

"I didn't say anything. My heart was too full. I knew what Ruth had said was true. That is where Jack's commissions have gone. What could I do? Is it always women's destiny only to watch and wait?" (Copyright, 1923, NEA Service, Inc.)

A Thought

Forbearing one another, and forgiving one another, if any man have a quarrel against any.—Col. 3:13.

If thou art of elephant-strength or of lion-claw, still peace is, in my or of lion-claw, still peace is, in my

"If Winter Comes" at the Capitol Theatre Monday. Twelve massive reels starting at 7:15 sharp. Don't miss it.

Toupee shortage is reported in New York. Which is good. The world needs a toupee shortage.

News from Washington. Senator gives position on point. Indicates he is sitting on a tack.

San Francisco street car men got a raise. Their work isn't so much fun with skirts longer.

They are insuring cows in Texas. Good money in it. Insure the cow and send her for a walk.

Government will sell 22 battleships. If a little smaller they would make fine school shoes.

Great news for boarders today. Ship which cans salmon has been wrecked off the coast of Alaska.

Argentina will raise more cotton next year. Tell the boll weevils. They like to travel.

We still have some old-fashioned boys. One arrested in Syracuse for stealing a horse.

Mr. Weisendanger is in jail in Lodi, Calif., showing he was not what his name implies.

Man in New Orleans stabbed another over bootleg, which was as injurious as giving it to him.

Bandits got a truck load of eggs near Rye, Ind., so actors should steer clear of the place.

What's in a name? Modesto, Calif., has reduced taxes.

We say a Portland (Ore.) man caught with three wedding rings could be freed as punishment.

Salida (Calif.) choir had a picnic, which may have sounded more like a few heated arguments.

Men don't work hard these days. Took 30 masked bandits to loot one Bristol (Pa.) warehouse.

Stockton (Calif.) boys are putting up a school building, so may leave a nail in teacher's seat.

Near Pine Bluff, Wyo., 41 freight cars were blown off the track by wind resembling a politician.

Fort Worth (Texas) bookkeepers fought over their totals, which was a regular fiscal fight.

Bricklayer shot a man in Birmingham, Ala. Man may have asked if he was a layman.

Cougar seen near Ferndale, Wash., got away. He was as wild as a world's series pitcher.

Statistics show the United States eats 15,000,000 bananas daily, in spite of that song.

Northwest News

A. O. U. W. Officer Dies At Minot

Minot, N. D. Oct. 6.—Isly V. Leifur, 66, deputy grand master of the A. O. U. W. and manager of the northwestern North Dakota district with headquarters in Minot, died last 12 following an illness of about two weeks' duration. Death resulted from influenza and complications. His home was at Mountain, N. D.

Valuable Note Is Recovered

Linton, N. D., Oct. 6.—The \$1,200 note in the Mewling estate which disappeared from the county judge's office a fortnight ago just as mysteriously appeared again Monday when County Treasurer E. T. Atha found it on the typewriter slide in Clerk of Court Bickler's desk. The recovery of the lost document was just as spectacular as its loss. Messrs. Bickler and Atha are absolutely certain that the note had been in the place it was found only a short time, as they state that they often pull this slide out to use it as a foot-rest when sitting in front of the desk. Thomas states that he used it thus only last Saturday.

Mill Board Member Is Ill

Grand Forks, Oct. 6.—James Whelan of St. Thomas, member of the board of managers of the state mill and elevator, is improving at St. Michael's hospital, this city, where he was taken yesterday after becoming ill.

Mr. Whelan was attending a meeting of the board of managers at the state mill yesterday when, about 11 a. m., he became ill and was taken to his hotel. He later lost consciousness and was taken to St. Michael's hospital. His attending physician announced that he was suffering from a small hemorrhage of the brain.

Mrs. Whelan came here with her husband at the opening of the meeting on Tuesday of the mill managers. His two sons, Thomas and Lewis, arrived last evening.

Alleged Forger To Be Returned

Fargo, Oct. 6.—Representatives of the Cass county sheriff's office left for Oklahoma City to take charge of Theodore Dahl, alias "Teddy Leonard," who was arrested there this week for forgery. Dahl has waived extradition and will be returned here to answer a charge of forgery.

He is alleged to have got several hundred dollars from Fargo merchants during the week following the interstate fair. He is charged with signing the name of Guy Stanton to a check for \$25.50 passed in Ward Davenport and the name of J. E. Foster to two checks, one for \$18.20 passed at the R. & G. Bootery and one for \$17.98 passed at Black's store. Other names are said to have been signed to checks passed at other business places.

Dahl is said to be a professional dancer on tour now with the "Teddy Leonard Dancers." He was traced some time by the sheriff's department and was finally located in Oklahoma City.

BURGLAR TO PRISON.

Towner, N. D., Oct. 6.—Pleading guilty here to burglary in connection with the robbery last Saturday of the Fedie and Sweet store at Berwick, John Murphy, 32, was sentenced by Judge C. W. Butts to 2 1/2 years in the penitentiary. Murphy is a drug addict and was weak and pale when brought into the court room. He was captured in Minot last Saturday.

Harry Forbes, held as a suspect in the same robbery, has been released.

HEAD CUT.

Kensal, N. D., Oct. 6.—Roy Tesch, local farmer, received a bad cut on the head when attempting to drive through a door when riding on a load of potatoes. The door was not high enough to admit the man standing so he had laid down on the load. He misjudged even at that and his head hit the top of the door. A severe gash was cut in the scalp.

ADVENTURE OF THE TWINS

By Olive Roberts Barton

"Quack, quack, quack!" went Misses Waddle Duck.

"Quack, quack, quack!" went her six children.

"Cluck, cluck, cluck!" went Misses Hen. Cluck, cluck, cut-a-cut, cut, cockle-a-doodle-doo!" went all the chickens and roosters.

"Gobble, gobble, gobble!" went Mister Turkey. "Gobble, gobble, gobble, peep, peep, gobble!" went all the turkeys, big and little.

"Moo!" called out Misses Cow, lifting her head—and her voice.

"Moo!" echoed Crazy Calf in his funny short way.

"Oink, oink, oink!" went all the pigs, looking through the barnyard fence.

"Honk, honk, honk!" hissed the geese.

"Ma!" went Billy Goat.

"Baa!" went Snipper Sheep, and all the other sheep out in the field said "Baa!" just to keep company.

"My goodness!" laughed Nancy. "It sounds as though Squeaky-Moo Land was giving a concert."

"I think it is," said Mister Dodger solemnly. "Each one has a very good voice, too."

But suddenly a dreadful sound split the air. It was simply awful.

Minot Man Victim Of Auto Accident

Minot, Oct. 6.—Guy Gibbons, former Minot resident, having been engaged in railroad work here, was accidentally killed this week, six miles north of Wildrose, when an automobile in which he was riding alone turned over and pinned him underneath. A defective steering gear is blamed for the accident. Coroner W. S. A. Miller of Divide county, who visited the scene of the tragedy declared that no inquest was necessary, according to a message from Crosby today.

Lake Pioneer Dies of Hurts

Devils Lake, N. D., Oct. 6.—George H. Locke, 66, burned and overcome by smoke when the Locke block, of which he was owner, burned two weeks ago, died in Mercy hospital of his injuries.

Mr. Locke was rescued unconscious from his burning apartment, but his lungs became so filled with smoke that they became congested, causing bronchial pneumonia.

George H. Locke was one of the first settlers in Ramsey county. He was born in New London, N. Y., and went to Colorado when a young man where he made much success at gold mining.

In 1881 he drove from Colorado to Devils Lake with a team and a buckboard wagon, and homesteaded near here.

Farm Exchange Day Is Planned

Devils Lake, N. D., Oct. 6.—From the interest being taken in the Farm Products Sale and Exchange days, to be held at the fair grounds in Devils Lake on Tuesday and Wednesday, Oct. 9 and 10, it will be the biggest event of the fall in the city. Farmers residing in all parts of the county are making inquiries in regard to both the show and the sale and exchange event, and from the amount of inquiries and requests for premium lists coming in to Secretary B. A. Stefanowicz the number of exhibits, as well as contributions to the sale and exchange and the attendance, will surpass all expectations.

The several committees which have been working on this event report that everything is now in readiness for the affair, and nothing can prevent it being a huge success if the weather is at all favorable.

This is the first event in Devils Lake where the Ramsey County Farm bureau and the Civic and Commerce association have gone together for the purpose of holding an event aimed to benefit the community at large. The Farm bureau is putting on the sale and exchange days, while the Civic and Commerce association is putting on the show on the same dates. The business men of the city, as well as the farmers, are taking a great interest in the work, and will be well represented on the grounds.

Charity Merger Is Fargo Plan

Fargo, Oct. 6.—About 30 men and women, representing various Fargo organizations, including churches, decided on the organization of the United Welfare bureau for Fargo when they met at the Commercial club and began such organization.

A proposed constitution was presented by a constitutional committee. Enough of this constitution was adopted to give the organization a name, to state its purpose and to outline how the membership shall be constituted.

Another meeting is to be held at the Commercial club at 4 p. m. Thursday, Oct. 18. Meanwhile the representatives took copies of the constitution back to their respective organizations for consideration and the plan is to ratify the rest of the constitution and by-laws at the next meeting, if satisfactory.

FARM HOME DESTROYED.

Cooperstown, N. D., Oct. 6.—The farm home of Mark Curtis without question one of the finest in Griggs county, was destroyed by fire last week. It is believed that defective wiring was the cause of the blaze.

It was so loud that the Twins clapped their hands over their ears and Mister Dodger made a wry face.

"Hee, hee! Hee, haw!" it went over and over and over and over.

And there stood Dummy Donkey, grinning like a Cheshire Cat. "I've got you all beat!" he brayed, laughing till he showed his teeth. "I've got the finest voice in Squeaky-Moo Land and I dare anybody to say I haven't."

The ducks waggled their tails and waddled off to the pond without an answer.

The chickens all started to dig for worms.

The turkeys, marched off and so did the geese.

Billy Goat and Mister Sheep and all the pigs disappeared and Misses Cow and Crazy Calf switched their tails and went off for a drink.

Nobody said a word.

Just then Farmer Brown came along "Get out!" he yelled crossly. "You're the only one of all my farm creatures who won't work for his living. You won't even pull my cart without halting. You're all the same and no brains, just like a lot of people I know."

Dummy Donkey looked foolish and trotted away. But Mister Dodger and the Twins heard him say to himself: "I suppose I'll have to start to work if I want my board and keep. If Farmer Brown kitches me up to-morrow, I won't balk once."

(To Be Continued.) (Copyright, 1923, NEA Service, Inc.)

Social and Personal

PAPER ON ROOSEVELT

A most enjoyable and instructive paper on "The Life of Roosevelt" was presented by Mrs. Benton Baker to the members of the D. A. R. at their regular monthly meeting, held Friday at the McKensie hotel. Lunch was served at 1 o'clock, and was followed by a short business session with Mrs. F. L. Conklin, regent, presiding. Mrs. W. W. Meyer, registrar, was appointed to the office of treasurer, through the resignation of Miss Lucile Dahl, and Mrs. A. M. Christianson, historian, was appointed to Mrs. Meyer's past office. Mrs. Baker was chosen historian to succeed Mrs. Christianson.

BRIDGE PARTY

Miss Louise Berndt pleasantly entertained a group of friends at her home Friday evening at an informal bridge party, the occasion being her birthday anniversary. Cards were played progressively at two tables, and the high and low favors were awarded to Miss Ruth Rawlings and Mary Cayen respectively. Late in the evening, the hostess served a delicious luncheon. A decorative scheme of black and orange was used, and the Halloween idea was carried out in the appointments in the table.

MOVES TO CITY

Jefferson Steiner, treasurer of the Washburn Lignite Coal company of Wilton, has moved to this city from Minneapolis and will establish an office here. For many years the treasurer of the company has resided in Minneapolis. Mr. Steiner assumed the position a few months ago. It was decided that the office should be moved closer to the scene of the company's mining operations, it was stated by officials of the company.

REV. POSTLETHWAITE BETTER. Rev. H. C. Postlethwaite of the First Presbyterian church, who has been ill for several months, is improving rapidly. He was able to be out riding yesterday for the first time since he has been brought home from the hospital, and was to go out riding again today. Physicians and members of the family are highly elated over the rapid progress toward complete recovery being made by Rev. Postlethwaite.

TO BE BROUGHT HOME. Mrs. E. G. Patterson, who has been ill in Chicago for many weeks, is expected to be brought back to Bismarck early next week, according to word received from Dr. C. E. Stackhouse, who early this week went to Chicago to arrange for the return trip. Mr. Patterson, who has been at his wife's bedside during her entire illness, will accompany her home.

HOSPITAL ALUMNI TO ELECT. The members of the St. Alexius alumni are requested to meet at the St. Alexius class rooms, Monday, October 8 at 8 p. m., when election of officers and other important matters will be taken up. This is the first meeting of the organization since last May, and all members are urged to be present.

TO ATTEND CONFERENCE. Rev. S. F. Halford and Rev. H. S. Harris will leave Monday for Grand Forks, where they will attend the annual state conference of the Methodist Episcopal church. J. P. Jackson will leave later in the week as a lay delegate to the convention.

BIRTHDAY SURPRISE. After the regular meeting of Troop 1, Boy Scouts last evening, they all

ALWAYS READY FOR Baker's Breakfast Cocoa

Growing children want and frequently need more nourishment than adults, owing to the activity of their restless little bodies. Baker's Cocoa fills all the requirements of the dietitian and physician as a delicious, pure and healthful beverage.

Just as good for older people.

It is the essence of high quality.

Social and Personal

PAPER ON ROOSEVELT

A most enjoyable and instructive paper on "The Life of Roosevelt" was presented by Mrs. Benton Baker to the members of the D. A. R. at their regular monthly meeting, held Friday at the McKean hotel. Lunch was served at 1 o'clock, and was followed by a short business session with Mrs. P. L. Conklin, regent, presiding. Mrs. W. W. Moyer, registrar, was appointed to the office of treasurer, through the resignation of Mrs. Lucile Dahl, and Mrs. A. M. Christianson, historian, was appointed to Mrs. Moyer's past office. Mrs. Baker was chosen historian to succeed Mrs. Christianson.

BRIDGE PARTY

Miss Louise Berndt pleasantly entertained a group of friends at her home Friday evening at an informal bridge party, the occasion being her birthday anniversary. Cards were played progressively at two tables, and the high and low favors were awarded to Miss Ruth Rawlings and Mary Cayen, respectively. Late in the evening, the hostess served a delicious luncheon. A decorative scheme of black and orange was used, and the Halloween idea was carried out in the appointments in the table.

MOVES TO CITY

Jefferson Steiner, treasurer of the Washburn Lignite Coal company of Wilton, has moved to this city from Minneapolis and will establish an office here. For many years the treasurer of the company has resided in Minneapolis. Mr. Steiner assumed the position a few months ago. It was decided that the office should be moved closer to the scene of the company's mining operations, it was stated by officials of the company.

REV. POSTLETHWAITE BETTER

Rev. H. C. Postlethwaite of the First Presbyterian church, who has been ill for several months, is improving rapidly. SPORTS

HEILMANN TO WIN CROWN OF KING OF SWAT

Detroit Will Take Honors Held by Hornsby of Nationals Last Year

RUTH FALLS BACK

Chicago, Oct. 6.—Harry Heilmann of the Detroit Tigers will be crowned 1923 batting champion of the American League, with Rogers Hornsby, of St. Louis, succeeding himself as the premier swatter of the National League.

With the season closing tomorrow, Heilmann, who won the title in 1921 with an average of .394, has an average of .401 including games of last Wednesday. If this .400 average is maintained in the final games of the race, it will be the sixth time in the history of the American League that a player has batted above .400 for the season.

A year ago, George Sisler, star first baseman with St. Louis, who was unable to play a large part of this season because of eye ailment led the race with an average of .419. One of the notable achievements of the 1923 race was the performance of Eddie Collins of the White Sox, who answered the challenge that he was "slipping" by climbing from twentieth last season to fourth this year, with an average above .350. Collins also is far in the lead in stolen bases, with a record up to Wednesday, of forty-seven.

"Babe" Ruth, star of the Yankees, is fourteen points behind Heilmann. Ruth managed to collect one four-bagger during the past week, bringing his total up to thirty-eight. He still leads in total bases with 378, but has been passed as a run-getter by Heilmann and Speaker and Jamieson of Cleveland. Jamieson is leading with 212 tallies, while Heilmann has scored 210 times and Speaker 207. Ruth has registered only 155 runs.

Other leading batters: E. Collins, Chicago, .359; Williams, St. Louis, .354; J. Sewell, Cleveland, .352; Jamieson, Cleveland, .341; Cobb, Detroit, .340; J. Harris, Boston, .331; Manush, Detroit, .331; Burns, Boston, .327.

The National League race finds Hornsby of the Cardinals batting .384 with indications that no other player will pass him. Zack Wheat of Brooklyn is running second with .378. The veteran Cy Williams of the Phillies is heading for the home run honors of the majors with a string of forty.

Carey of Pittsburgh looks like the king of the base stealers with 48 thefts, with Grantham of Chicago trailing him with 43. Carey and Young of New York are running a close race for the honors in scoring. The Pittsburgher having counted 119 times, while Young registered 121.

Other leading batters: Bottomley, St. Louis, .367; Fournier, Brooklyn, .353; Frisch, New York, .347; Roush, Cincinnati, .341; Grimm, Pittsburgh, .340; Young, New York, .335; Hargrave, Cincinnati, .334; Traynor, Pittsburgh, .332; Johnston, Brooklyn, .327; Duncan, Cincinnati, .327.

The batting leaders in the American Association are beginning to feel the strain of the hot race which is drawing to a close. Lamar of Toledo, however, is safely out in front with an average of .393 with his manager, Terry, trailing with .377 and Carl East of Minneapolis, in third place with .375.

Bunny Brief of Kansas City, fell off in home run clouting, allowing East to pass him, with thirty-one homers. Brief has 29.

Conney of Milwaukee by stealing 50 bases, has set a pace that assures him of first honors. Other leading batters: Combs, Louisville, .373; Brown, Indianapolis, .365; Brief, Kansas City, .357; Griffin, Milwaukee, .356; Brannan, Kansas City, .354; Goss, Kansas City, .349; J. Smith, Toledo, .346; E. Murphy, Columbus, .344; Haas, St. Paul, .343.

ZEV SELECTED FOR BIG RACE

New York, Oct. 6.—It was officially announced last night that Harry Sinclair's three year old Zev, has been selected to meet Papyrus, English derby winner, in the \$100,000 international race October 20.

The official announcement, coming as it has twenty-four hours before the time set by the Jockey Club committee, was due, it was said, to the fact a member of the committee made the decision known at Belmont Park yesterday afternoon.

KRAUSE LOSES GAME FIGHT

Watertown, S. D., Oct. 5.—"Battling" Krause, welterweight of Fargo, floored four times by the terrific onslaughts of Bud Logan of Omaha in an attempt to knock him out but game and fighting every minute, with a punch in either hand that rocked his opponent several times after spectators believed him felled, fought through ten thrilling rounds in the semi-windup bout of the American Legion thirty round card last night.

He lost the decision but won the prize by his sheer gameness and

RUTH, WALTER JOHNSON ARE STARS OF DAY

Former Gets 40th Homer; Latter Strikes Out 12 Batters in Boston

New York, Oct. 6.—Babe Ruth of the New York Yankees and Walter Johnson of the Washington Senators each in his special field proved to be the outstanding figures in major league baseball yesterday.

Ruth in the third-inning of the Yankee-Athletic game of the season and moved to within one tally of the total held by Cy Williams. Johnson made his noteworthy contribution in striking out 12 Red Sox batters in the first game of the Washington-Boston double-header which was the last game Johnson will pitch this season, according to Manager Bush.

The day's engagements found the Yankees victorious, 8 to 4, over the Athletics. Cleveland a 1 to 1 winner over the Chicago White Sox; Detroit a 9 to 1 conqueror of St. Louis and Washington a two-time winner over the Boston Red Sox, the scores being 4 to 2 and 8 to 4.

No games were played in the National League.

VALLEY CITY IN TIE GAME

Valley City, N. D., Oct. 6.—Valley City and Moorhead high school football teams played to a scoreless tie here yesterday, the feature of Home-

JUST BEFORE THE ARMY ROMPED OVER TENNESSEE

Showing Captain Mulligan (left) extending the hand of competitive fellowship to Captain Holt of Tennessee just before the start of the first inter-sectional clash of the year. A few moments later Captain Mulligan and his followers handed the little Tennesseans a neat and tidy passing.

KRAUSE FIGHTS ON WITH TWO RIBS CRACKED

Watertown, Oct. 6.—Battling Krause of Fargo fought 4-1-2 rounds of his semi-windup with Bud Logan of Omaha here last night with two broken ribs, according to announcement today by Dr. Kinney, official physician of the South Dakota boxing commission. Logan knocked Krause to the canvas twice in the sixth round but the battler rallied and despite severe punishment stayed on his feet.

WOMEN START PIN SEASON

Two teams of the Business and Professional Women's club have started the bowling season in Bismarck. The "blues" won from the "whites" in two games' totals, 512 to 414. Due to inexperience of the bowlers the scores were not high, but they expect to improve right along.

PAL MORAN KAYOES WHITE

New York, Oct. 6.—Pal Moran of New Orleans, knocked out Charlie White of Chicago, in the fourteenth round of their fifteen round match in Madison Square Garden last night.

Spud Inspection Fee Is Charged

Fargo, N. D., Oct. 6.—Carload lots of potatoes are now being inspected at Moorhead at the reduced price of \$2.50 a car, according to A. H. Benton of the Experiment Station staff at the North Dakota Agricultural college. The former charge for this service was \$4 a car but the reduction was made in order to bring the price low enough to benefit farmers as well as dealers.

Mr. Benton, marketing specialist at the station, declares that the farmers are more than upaid for the costs of inspection as the buyers pay well for the inspected cars even though the potatoes may not pass the inspection as qualifying for the grade of U. S. No. 1. North Dakota farmers as well as those living in Minnesota may have their cars inspected by Minnesota state inspectors.

Certificates of inspection may be made out with the percentage of blemished potatoes marked thereon. When the cars do not qualify as of the best grade the inspector notes whether the blemishes consist mainly of growth cracks, dry rot, rot, second growth, or bruises. In other years this has not been done but the cars have borne the simple legend as passed or not passed.

DO YOU REMEMBER

How much money have you saved since then? That's too bad, no year should be allowed to slip away without saving something. Better get me about the Fidelity Building Loan Association of Valley City. They have a new and safe way of handling savings. For every \$5.00 per month saved for a period of eight years (\$40.00 paid in) they pay back \$1000.00. Save \$15.00 per month for eight years and get back \$2,000.00 in cash. You do not have to die to get the benefit of your savings. This is a safer proposition than any bank can offer. Don't wait until you are out of debt, save in spite of your debts. If the scores never stopped we would never have any mighty oaks. Get busy.

JOSEPH COGHLAN, Local Agent, Office over Capitol Theatre.

BOGUS U. S. DEGREES SOLD IN ENGLAND

American Schools Swindle Many British with Spurious College Degrees

CARDS BEAR DEGREES

London, Oct. 6.—The Englishman's love of initials after his name has made this country a fertile field for bogus American colleges, which carry on a sort of correspondence curricula and supply degrees at five dollars each, according to Dr. George E. MacLean, former president of Iowa university, who has recently been warning gullible Britons against striving for sheepskins from unheard of institutions in the United States.

"I have had a steady stream of people coming into this office with the degree 'B.D.' (Bachelor of Divinity)," he said. "Until they interviewed me they had no idea that the money paid for their degrees had been obtained from them virtually by false pretenses."

"I know an English clergyman who in two years got the degree of B.D. and D. Litt., simply by correspondence. There is one of these 'colleges,' incorporated in Illinois, that has tricked hundreds of English students into parting with considerable sums of money for attractive looking diplomas which are entirely worthless from an educational point of view. The university exists only in name. I have never yet heard of anyone who took one of its correspondence courses and failed to get a degree. Clergymen who wake up late to the value of a University degree, are the most often gulled."

Throughout England college graduates flaunt their degrees in a manner unknown in America. Often a man's calling cards will contain the initials "B.A.," or "M.A." after his name, and clergymen have these degrees, if they possess them, printed on the signboards outside their churches. College degrees are held by proportionately fewer people in England than in America, and more pride is therefore taken in Baccalaureate honors.

BAIRD TAKES RECEIVER JOB

L. R. Baird, Dickinson banker, will be general receiver of all closed banks of the state, it is expected, Judge Charles D. Cooley of Grand Forks, named by the supreme court to appoint receivers and supervise the closed banks, said in Bismarck today. Judge Cooley confirmed the resignation of E. C. Bacheller of Grand Forks, named joint receiver, and said he understood Mr. Baird would accept and a new order would be issued naming Mr. Baird sole receiver.

HAZELTON MAN'S SOW WINS IN BIG CONTEST

Hazelton, N. D., Oct. 6.—Score one for Hazelton community.

D. C. Crimmins entered a sow in the contest of the Poland China Journal Ton Litter Club of Kansas City, Mo.

Mr. Crimmins wrote back: "Crimmins' Ton Litter goes over the top with a weight of 2047 pounds in six months. Entered in the Poland China Journal Litter Club of Kansas City, Missouri. Crimmins' great producing Poland China sow, Lib Queen, Reg. No. 1114982, produces a ton and 47 pounds of pork in 180 days, making her one of the greatest producing sows in the northwest."

The idea of this club was to enter sows whose litter would make a ton of pork within six months, and Mr. Crimmins' Lib Queen was one of the very few sows of the many entered that made good.

OLD RELIC OF WEST PASSES THROUGH CITY

Travelling from Tacoma, Washington, to St. Paul, an honored relic of Northwest history has just passed through the scene of its early use, to rest in the archives of the Northern Pacific Railway. It is an old United States flag, bearing only 36 stars and ragged with age, and it marks a significant period in the development of the northwestern states.

When the financial panic of 1873 had passed, and the work of building a railroad on into the wilderness of the Northwest could be resumed, the Northern Pacific Company was not able to afford immediate construction of the bridge planned to span the Missouri River between Mandan and Bismarck. But the construction of the Missouri Division had to go on in spite of the lack of bridges.

Work was begun on the new division in the dead of winter, 1878, by the transportation of ties, iron, and other material across the Missouri River on the ice. A track was laid upon the frozen surface of the river, under the direction of General H. L. Rodier, engineer of construction. For several weeks trains were run from one bank to the other on the ice—a daring innovation in railway road-building.

Four-fifths of the water consumed in London comes from

CHAMPION OF ALL ENGLAND

England's new girl golf champ is Miss Mary Mackey. Here she is with the Princess Mary Trophy which she won at a recent title match.

HIGH HONORS FOR HER

Coolidge Sees Visitors on Co-Op Marketing

Washington, Oct. 6.—Organization of cooperative marketing associations selected by the administration as one means by which the federal government may assist farmers and livestock growers was discussed today by President Coolidge today with former Senator Kellogg, Republican, Minnesota, and Dwight B. Heard of Phoenix, Arizona, president of the Arizona Cooperative Association.

OIL PUMPING AND LOSS OF POWER

Caused from worn cylinders, eliminated with the Bottler Boring Bar. The fastest, simplest, and most accurate tool on the market for refishing automobile cylinders. And all done with the motor in the chassis, no need of pulling your motor, and dismantling it. This tool saves that expensive. Makes an absolutely true hole in perfect alignment with the block in a fraction of the time required by other device, takes from .015 inches to .004 inches at one cut. Garage owners get one of these tools and make that extra profit this

winter that you have been sending outside. Send for literature or ask for a demonstration. We can prove all we claim for this tool.

Geo. L. Kilmer, State Distributor, Bismarck, N. D.

MONOCLES ON TAXI-MEN

London, Oct. 6.—Aw, I say, even these hally taxi drivers are sporting the monocle these days. Yes, a Bond street firm of opticians reports the demand for these single eye-glasses is six times that before the war.

GIRLS LAP SANCTUARY

Ballater, England, Oct. 6.—Grouse hunters near here are considerate. They frightened a hare out of its retreat, and their dogs chased it until it jumped into the lap of the gamekeeper's daughter. There it remained until after the hunt.

Special wire installed to receive World Series baseball play by play, at Blackstone Billiard Parlors.

"If Winter Comes" at the Capitol Theatre Monday. Twelve massive reels starting at 7:15 sharp. Don't miss it.

EARTH SHOCKS ARE FELT

Old Wall in Quebec, Canada, Is Crumbled by Shocks

Quebec, Oct. 6.—Earth shocks were felt here at 6:15 a. m. today. Many persons were awakened by the shocks. A wall in Quebec Seminary 300 years old was crumbled.

The shock is reported to have lasted several seconds. There was no official record of the tremors as the city of Quebec is without seismograph instruments.

North of Quebec the shock was more serious but no damage has been reported.

MORE LOVE IS HELD NEED

Magnus Johnson Received By Chicago Business Men at Luncheon

Chicago, Oct. 6.—More love is the need of the hour, Magnus Johnson, senator from Minnesota, told Chicago businessmen at the executive club here yesterday. He appealed for the co-operation of big business. It wasn't only the farmers who revolted in Minnesota at the last senatorial election, he said, "the bankers, businessmen and professional men revolted with the farmers. Ninety-eight per cent of the bankers in my home district were for me."

"I am carrying a message from the businessmen and professional men of the small town. For the farmer, the businessman of the small town, the little bankers, each is nothing more than a labor man. Gentlemen, it is up to you to join us, let us reason achieved by co-operation. 'I believe in the golden rule as taught by the lowly Nazarene. There is no better text for any preacher, and it shall be my text.'

"What you businessmen have achieved in your great city you have achieved by co-operation. The co-operation and the contentment of the city is dependent upon the contentment of the farming community within a radius of 1,000 to 2,000 miles."

Mr. Johnson was preceded by J. Adam Bede, former congressman from Minnesota, who said "my friend Johnson isn't a red. There are no reds in Minnesota. He is simply leading the Republicans of Minnesota around a detour."

"There are some detours that never come back" Mr. Johnson replied.

CITY NEWS

Parents of Son. Mr. and Mrs. Matt Hiceman, Otter Creek, are the parents of a son, born at the Bismarck hospital.

Bismarck Hospital. Mrs. Charles Nordquist, Turtle Lake; Mrs. Fred Hanson, Ryder; Vivian Fauth, Tuttle; Carl Bauman, Yucca; Wesley Means, Fort Yates; H. W. Nyes, Ryder; Mrs. V. SPORTS

HEILMANN TO WIN CROWN OF KING OF SWAT

Detroit Will Take Honors Held by Hornsby of Nationals Last Year

RUTH FALLS BACK

Chicago, Oct. 6.—Harry Heilmann of the Detroit Tigers will be crowned 1923 batting champion of the American League, with Rogers Hornsby, of St. Louis, succeeding himself as the premier swatter of the National League.

With the season closing tomorrow, Heilmann, who won the title in 1921 with an average of .394, has an average of .401 including games of last Wednesday. If this 400 average is maintained in the final games of the race, it will be the fifth time in the history of the American League that a player has batted above .400 for the season.

A year ago, George Sisler, star first baseman with St. Louis, who was unable to play a large part of this season because of eye ailment led the race with an average of .419.

One of the notable achievements of the 1923 race was the performance of Eddie Collins of the White Sox, who answered the challenge that he was "slipping" by climbing from twentieth last season to fourth this year, with an average above .350. Collins also is far in the lead in stolen bases, with a record up to Wednesday, of forty-seven.

"Babe" Ruth, star of the Yankees, is fourteen points behind Heilmann. Ruth managed to collect one four-bagger during the past week, bringing his total up to thirty-eight. He still leads in total bases with 378, but has been passed as a run-getter by Heilmann and Speaker and Jamieson of Cleveland. Jamieson is leading with 212 tallies, while Heilmann has scored 210 times and Speaker 207.

Ruth has registered only 155 runs. Other leading batters: E. Collins, Chicago, .359; Williams, St. Louis, .354; J. Sewell, Cleveland, .352; Jamieson, Cleveland, .341; Cobb, Detroit, .340; J. Harris, Boston, .331; Manush, Detroit, .331; Burns, Boston, .327.

The National League race finds Hornsby of the Cardinals batting .394 with indications that no other player will pass him. Zack Wheat of Brooklyn is running second with .378.

The veteran Cy Williams of the Phillies is heading for the home run honors of the majors with a string of forty.

Carey of Pittsburgh looks like the king of the base stealers with his 48 thefts, with Grantland of Chicago trailing him with 42. Carey and Young of New York are running a close race for the honors in scoring. The Pittsburgher having counted 119 times, while Young registered 121.

Other leading batters: Bottomley, St. Louis, .367; Fournier, Brooklyn, .353; Frisch, New York, .347; Roush, Cincinnati, .341; Grimm, Pittsburgh, .340; Young, New York, .338; Hargrave, Cincinnati, .334; Traynor, Pittsburgh, .332; Johnston, Brooklyn, .327; Duncan, Cincinnati, .327.

willfulness to take punishment. He was highly commended by Referee George Barton.

RUTH, WALTER JOHNSON ARE STARS OF DAY

Former Gets 40th Homer; Latter Strikes Out 12 Batters in Boston

New York, Oct. 6.—Babe Ruth of the New York Yankees and Walter Johnson of the Washington Senators, each in his special field proved to be the outstanding figures in major league baseball yesterday.

Ruth in the third-inning of the Yankee-Athletic game at the Stadium registered his 40th home run of the season and moved to within one tally of the total held by Cy Williams.

Johnson made his noteworthy contribution in striking out 12 Red Sox batters in the first game of the Washington-Boston double-header which was the last game Johnson will pitch this season, according to Manager Bush.

The day's engagements found the Yankees victorious, 8 to 4, over the Athletics. Cleveland a 6 to 1 winner over the Chicago White Sox; Detroit a 9 to 1 conqueror of St. Louis and Washington a two-time winner over the Boston Red Sox, the scores being 4 to 2 and 8 to 4.

No games were played in the National League.

Valley City, N. D., Oct. 6.—Valley City and Moorhead high school football teams played to a scoreless tie here yesterday, the feature of Home-

KRAUSE FIGHTS ON WITH TWO RIBS CRACKED

Watertown, Oct. 6.—Battling Krause of Fargo fought 4-1-2 rounds of his semi-windup with Bud Logan of Omaha here last night with two broken ribs, according to announcement today by Dr. Kinney, official physician of the South Dakota boxing commission. Logan knocked Krause to the canvas twice in the sixth round but the batter rallied and despite severe punishment stayed the limit.

WOMEN START PIN SEASON

Two teams of the Business and Professional Women's club have started the bowling season in Bismarck.

PAL MORAN KAYOES WHITE

New York, Oct. 6.—Pal Moran of New Orleans, knocked out Charlie White of Chicago, in the fourteenth round of their fifteen round match in Madison Square Garden last night.

Spud Inspection Fee Is Charged

Fargo, N. D., Oct. 6.—Carload lots of potatoes are now being inspected at Moorhead at the reduced price of \$2.50 a car, according to A. H. Benton of the Experiment Station staff at the North Dakota Agricultural college. The former charge for this service was \$4 a car but the reduction was made in order to bring the price low enough to benefit farmers as well as dealers.

DO YOU REMEMBER

A YEAR AGO TODAY: How much money have you saved then? That's too bad, for you should be allowed to slip away from saving something. Better see about the Fidelity Building and Loan Association of Valley City. They have a new and safe way of handling savings. For every \$5.00 per month saved for a period of eight years (\$480.00 paid in) they pay back \$1000.00. Save \$15.00 per month for eight years and get back \$3000.00 in cash. You do not have to die to get the benefit of your savings. This is a safer proposition than any bank can offer. Don't wait until you are out of debt, save in spite of your debts. If the actors never started we would never have any night, oaks. Get busy.

JOSEPH COUGHLIN, Local Agent, Office over Capitol Theatre.

BOGUS U. S. DEGREES SOLD IN ENGLAND

American Schools Swindle Many British with Spurious College Degrees

CARDS BEAR DEGREES

London, Oct. 6.—The Englishman's love of initials after his name has made this country a fertile field for bogus American colleges, which carry on a sort of correspondence curricula and supply degrees at five dollars each, according to Dr. George E. MacLean, former president of Iowa university, who has recently been warning gullible Britons against striving for sheepskins from unheeded institutions in the United States.

"I have had a steady stream of people coming into this office with the degree 'B.D.' (Bachelor of Divinity)," he said. "Until they interviewed me they had no idea that the money paid for their degrees had been obtained from them virtually by false pretenses."

"I know an English clergyman who in two years got the degree of B.D. and D. Litt. simply by correspondence. There is one of these 'colleges,' incorporated in Illinois, that has tricked hundreds of English students into parting with considerable sums of money for attractive looking diplomas which are entirely worthless from an educational point of view. The university exists only in name. I have never yet heard of anyone who took one of its correspondence courses and failed to get a degree. Clergymen who wake up late to the value of a University degree, are the most often gulled."

Throughout England college graduates flaunt their degrees in a manner unknown in America. Often a man's calling cards will contain the initials "B.A." or "M.A." after his name, and clergymen have these degrees, if they possess them, printed on the signboards outside their churches. College degrees are held by proportionately fewer people in England than in America, and more pride is therefore taken in Baccalaureate honors.

BAIRD TAKES RECEIVER JOB

L. B. Baird, Dickinson banker, will be general receiver of all closed banks of the state, it is expected. Judge Charles D. Cooley of Grand Forks, named by the supreme court to appoint receivers and supervise the closed banks, said in Bismarck today. Judge Cooley confirmed the resignation of B. C. Bacheller of Grand Forks, named joint receiver, and said he understood Mr. Baird would accept and a new order would be issued naming Mr. Baird sole receiver.

Mr. Baird later qualified as general receiver of closed banks by filing his oath of office and bond.

HAZELTON MAN'S SOW WINS IN BIG CONTEST

Hazleton, N. D., Oct. 6.—Score one for Hazleton community. D. C. Crimmins entered a sow in the contest of the Poland China Journal Litter Club of Kansas City, Mo.

Mr. Crimmins wrote back: "Crimmins' Ton Litter goes over the top with a weight of 2047 pounds in six months. Entered in the Poland China Journal Litter Club of Kansas City, Missouri, Crimmins' great producing Poland China sow, Lib Queen, Reg. No. 11149682, produced a ten and 47 pounds of pork in 180 days, making her one of the greatest producing sows in the northwest."

OLD RELIC OF WEST PASSES THROUGH CITY

Travelling from Tacoma, Washington, to St. Paul, an honored relic of Northwest history has just passed through the scene of its early use, to rest in the archives of the Northern Pacific Railway. It is an old United States flag, bearing only 36 stars and ragged with age, and it marks a significant period in the development of the northwestern states.

CHAMPION OF ALL ENGLAND

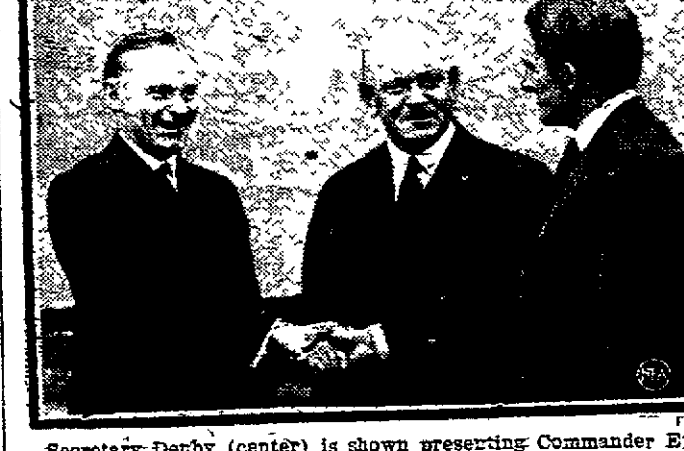

England's new girl golf champ is Miss Mary Mackey. Here she is win the Princess Mary Trophy which she won at a recent title match.

HIGH HONORS FOR HER

Meet Miss Margaret Mary Schorn, a graduate of St. Joseph's Hospital, St. Paul, Minn. She won the scholarship offered by the Trained Nurse and Hospital Review, over 15,000 competitors.

THE GOB'S BIG HOUR

Secretary Derby (center) is shown presenting Commander Epperly (right) to President Coolidge. Epperly is chairman of arrangements for Navy Yard Observance, Oct. 27.

Coolidge Sees Visitors on Co-Op Marketing

Washington, Oct. 6.—Organization of cooperative marketing associations selected by the administration as one means by which the federal government may assist farmers and livestock growers are sporting today by President Coolidge today with former Senator Kellogg, Republican, Minnesota, and Dwight B. Heard of Phoenix, Arizona, president of the Arizona Cooperative Association.

GIRL'S LAP SANCTUARY

Battersea, England, Oct. 6.—Grouse hunters near here are condescending. They frightened a hare out of its retreat, and their dogs chased it until it jumped into the lap of the gamekeeper's daughter. There it remained until noon the next day.

OIL PUMPING AND LOSS OF POWER

Caused from worn cylinders, elimination of the water bearing Bar. The fastest, simplest, and most accurate tool on the market for refuelling automobiles. And all done with the motor in the chassis, no need of pulling your motor and dismantling it. The tool saves that expense. Makes an absolutely true hole in perfect alignment with the block in a fraction of the time required by other device, takes from .015 inches to .004 inches at one cut. Garage owners, get one of these tools and make that extra profit this

EARTH SHOCKS ARE FELT

Old Wall in Quebec, Canada, Is Crumbled by Shocks

Quebec, Oct. 6.—Earth shocks were felt here at 6:15 a. m. today. Many persons were awakened by the shocks. A wall in Quebec Seminary 300 years old was crumbled. The shock is reported to have lasted several seconds. There was no official record of the tremors as the city of Quebec is without seismograph instruments.

MORE LOVE IS HELD NEED

Magnus Johnson Received By Chicago Business Men at Luncheon

Chicago, Oct. 6.—More love is the need of the hour, Magnus Johnson, senator from Minnesota, told Chicago businessmen at the executive club here yesterday. He appealed for the co-operation of big business. "It wasn't only the farmers who revolted in Minnesota at the last senatorial election," he said, "the bankers, businessmen and professional men revolted with the farmers. Ninety-eight per cent of the bankers in my home district were for me."

"I am carrying a message from the businessmen and professional men of the small town. For the farmer, the businessman of the small town, the little bankers, each is nothing more than a labor man. Gentlemen, it is up to you to join us, let us reason achieved by co-operation."

"I believe in the golden rule as taught by the lowly Nazarene. There is no better text for any preacher, and it shall be my text. 'What you do to the least of these, you do to me.'"

"There are some delusions that never come back," Mr. Johnson replied.

CITY NEWS

Parents of Son

Mr. and Mrs. Matt Herriman, Otter Creek, are the parents of a son, born at the Bismarck hospital.

Bismarck Hospital

Mrs. Charles Nordquist, Turtle Lake; Mrs. Fred Hanson, Rydner; Viyan Smith, Rydner; Carl Bauman, Rydner; Wesley Means, Fort Yates; H. W. Nyce, Rydner; Mrs. V. Berger, Sweet Bridge, and Baby Elmer Fried, Danzia, have entered the Bismarck hospital for treatment; Elmer Johnson, Washburn, and Tolly Luby, Wing, have been discharged from the hospital.

St. Alexius Hospital

P. Arrowsmith, Mott; Nick-Thomas, Mrs. B. Johnson, Mauden; Robert McBratney, Mauden, and Master August Johnson, city, have entered the St. Alexius hospital for treatment. Miss Frank, Mrs. J. T. Mastel, baby girl, 2, B. Lash, Sterling, Baby Aldora Joyce, Zap; S. D. Cook, city, and Mrs. Albert Kemnitz, Steele, have been discharged from the hospital.

NEW Overland CHAMPION

\$695
F.O.B. Toledo

America's Only Versatile Car Another Innovation

We now present the greatest creation in Willys-Overland history—the first all-purpose car—the new Overland Champion! Exclusive features, utilities and economies! Probably the most convenient car of all time! Benefits never before offered to the salesman, the merchant, the farmer and the American family.

Advance showings indicate everywhere the most intense public interest ever shown in a new car.

Both front and rear seats adjustable forward and backward for short people and tall people. No stretching for pedals. No leg cramping.

Both front and rear seats entirely removable. Taking out rear seat and upholstery gives 50 cubic feet clear space for carrying samples, luggage, trunks, tools, camping duffle—anything!

Front and rear seats and upholstery make up into full sized bed in the car. A wonderful improvement for motor camping.

Doors front and rear—like the famous Willys-Knight Coupe-Sedan—no seat-climbing! Big trunk at rear at small extra price.

Smart body of steel, with washable blue Spanish long grain upholstery, cradled by Triplex springs (Patented). Overland quality and reliability! Astonishing economy! Come in and see the Champion.

LAHR MOTOR SALES COMPANY

BISMARCK, NORTH DAKOTA

Comfortable seating for five, with wide doors both front and rear—no seat-climbing.

50 cu. ft. of space for samples, luggage, etc., by removing rear seat and upholstery.

Front seat adjusts to three positions to accommodate short driver or tall driver.

Rear seat adjusts backward—no crowding behind when front seat is moved back.

Both seats and upholstery make into a full-length, full width bed in car.

Strong, deep, commodious trunk at rear furnished at small extra price.

Farm-truck, tools, supplies, trunks, luggage, etc., loaded easily through rear door.

All passengers enter and leave easily through doors both front and rear.

WHEN DOES RADIO FAN SLEEP, QUERY

When does the radio fan sleep? This question is being asked by officials of the Willard Storage Battery Company which recently opened its powerful new broadcasting station at Cleveland, Ohio. They have good reason for wondering about the nocturnal activities of radio fans for this company while testing out its transmitting apparatus every night for a month previous to opening regularly received thousands of letters from night-owl radio fans.

In order to have the air at a time no other stations were broadcasting, it was found necessary to test after midnight. Accordingly, WTAM, the call letters assigned to the new Willard station, tested either shortly after midnight or from five to eight o'clock in the morning. As the station was merely testing, it used its former station call letters, KXG, and asked all who heard the program to write to the station.

Willard officials know that they

would get many such reports but did not anticipate the flood of them which literally poured in from all over the United States and Canada. Many radio fans over a thousand miles distant from the broadcasting station, not knowing that they were receiving from one of the most powerful stations yet built expressed their curiosity as to what equipment the amateur station was using to get such distance.

The mystery was finally solved for them, however, when Willard began broadcasting regular programs

on Wednesday and Saturday evenings, using the newly assigned call letters WTAM.

But the question still remains—when do radio fans get their required sleep?
